Type: **poster presentation**

Comparing various approaches to chiral vortical effect

Tuesday, 11 July 2017 16:20 (20 minutes)

Different aspects of chiral phenomena are considered on the basis of comparison of generalized thermodynamic distribution function and quantum-field calculation of one-loop triangle diagram. The consequences for particle polarization in heavy ion collisions are discussed.

List of tracks

Presenter: Mr PROKHOROV, George (Dubna, JINR)

Session Classification: Poster session
