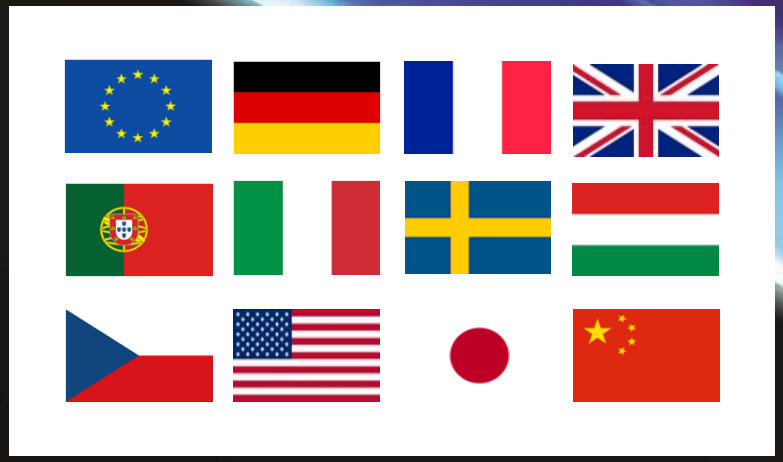
EUROPEAN PLASMA RESEARCH ACCELERATOR WITH EXCELLENCE IN APPLICATIONS

High Gradient Laser Plasma Accelerating Structure WP3

Brigitte CROS – Zulfikar NAJMUDIN



This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 653782.

Main actions since last SC meeting

- **T. Audet hired by CNRS-LPGP** for Eupraxia WP3 since december 1st 2016.
- WP3 meeting on October 26th
  - Content of first milestone report discussed and contributors identified
- **Writing of milestone report in progress**
  - Latex template received from management team
  - Overleaf file set-up for collaborative work
- Following discussions at the last Eupraxia meeting, a **proposal for experiments** using Gemini has been submitted by a consortium from Eupraxia teams on injector development (PI M. Streeter, U Lancaster, ICL, CNRS-LPGP, STFC, U Belfast, U Manchester).
