

## Collimation: experience and performance

*Tuesday 13 December 2016 17:10 (15 minutes)*

Main points to be addressed:

- Overview on 2016 performance (and comparison vs 2015)
  - o Reminder of settings throughout the cycle
  - o Cleaning (Run1 vs Run 2)
  - o Aperture measurements
  - o Effects of MKD-TCT change of phase advance in 2016
- MDs (potential improvements for next year):
  - o tighter collimation settings à hierarchy limit
- Brief recap on ion experience
- (MDs for further future: crystals, active halo control)

**Presenter:** MIRARCHI, Daniele

**Session Classification:** SESSION 3: PERFORMANCE 1
