

CEC-ICMC 2017 - Abstracts, Timetable and Presentations

Wednesday, 12 July 2017

C3OrC - Heat Transfer - Madison Ballroom BC (11:00 - 12:15)

-Conveners: John Brisson; Bertrand Baudouy

time	[id] title	presenter
11:00	[449] Progress of Cryogenic Pulsating Heat Pipes at UW-Madison	Mr FONSECA, Luis
11:15	[284] Parametric study on the thermal performance of beam screen samples of the High-Luminosity LHC upgrade	Dr BORGES DE SOUSA, Patricia
11:30	[483] Thermal Interface Material Characterization for Cryogenic Electronic Packaging Solutions	DILLON, Alison
11:45	[457] The application of interference fits for overcoming limitations in clamping methodologies for cryo-cooling first crystal configurations in X ray monochromators	Dr DOCKER, Peter
12:00	[26] Numerical Investigation on Pulsating Heat Pipes with Nitrogen and Hydrogen	Mr HAN, Dongyang
