

Session Program

9-13 Jul 2017

CEC-ICMC 2017 - Abstracts, Timetable and Presentations

C3PoC - Cryogenic Distribution Systems

Monona Terrace Community and Convention Center
Madison, Wisconsin USA

Wednesday 12 July

09:00

C3PoC - Cryogenic Distribution Systems

Poster Session | Location: Exhibit Hall AB | Conveners: Ali Hemmati, Al Zeller

Force cooled Quench Tanks for the ITER cryogenic system

Speaker

Grigory Kouzmenko

Commissioning of Cryogenic System for China Spallation Neutron Source

Speaker

Mr Bin Ye

Assembly and Commissioning of the helium cryogenic system for the hybrid superconducting outsert at CHMFL

Speaker

Dr Junjie LI

Design of Cryogenic System for SBN Near Detector at Fermilab

Speaker

Mr Frederick Schwartz

Preliminary Requirements Cryogenic Loads for the electron Ion Collider at BNL

Speaker

Roberto Than

Upgrade of the spoke test cavity station - PIP II

Speaker

Vincent Roger

Status on conceptual design of the CEPC cryogenic system

Speaker

Prof. shaopeng Li

11:00
