

## **Session Program**

**9-13 Jul 2017**

## **CEC-ICMC 2017 - Abstracts, Timetable and Presentations**

### ***M1PoA - Focused Symposia - Propulsion III: Materials, Technologies, Drivetrain Machines***

Monona Terrace Community and Convention Center  
Madison, Wisconsin USA

# Sunday 9 July

14:00

## **M1PoA - Focused Symposia - Propulsion III: Materials, Technologies, Drivetrain Machines**

**Poster Session** | **Location:** Exhibit Hall AB | **Conveners:** Takanobu Kiss, Dr Anna Kario

### **Study on the adjustment capability of the excitation system located inside superconducting machine electromagnetic shield**

**Speaker**

Prof. Dong Xia

### **Research on High TCS project for Gobi Photovoltaic Development**

**Speakers**

Prof. Huey-liang Hwang, ChengChao Jin

### **Status of Cryogenic and Superconducting Components for MW-Class Electric Power Systems**

**Speaker**

Timothy Haugan

### **Design Optimization of a Superconducting Gas-Insulated Transmission Line**

**Speaker**

Peter Cheetham

### **Computational Investigation of Superconducting Magnetic Energy Storage (SMES) Devices to Optimize Energy Density**

**Speaker**

Dr Thomas Bullard

16:00
