

CEC-ICMC 2017 - Abstracts, Timetable and Presentations

Wednesday, 12 July 2017

M3OrH - BSCCO Wires and Tapes II: Processing & Properties - Hall of Ideas - EH (16:15 - 18:15)

-Conveners: Hanping Miao; Tengming Shen

time	[id] title	presenter
16:15	[531] [Invited] Development of Silver-Sheathed Bi2223 Superconducting Wires	Dr OSABE, Goro
16:45	[466] [Invited] Development of Bi-2212 round wire for high field magnet applications	Dr MIAO, Hanping
17:15	[415] Advances in Bi-2212 Conductor Development Directed Toward High-Field Magnet Applications	HELLSTROM, Eric
17:30	[477] Reinforced, high current density Bi2212 wire for transposed cables and solenoidal coils	Dr OTTO, Alexander
17:45	[526] Characterization of reinforced Bi-2212 conductors for high field magnet applications	BROWN, Michael
18:00	[514] Influence of Twist Pitch on Hysteretic Losses and Transport Jc in Overpressure Processed Bi-2212 Round Wires	Mr OZ, Yavuz
