EuCARD-2, the largest collaborative accelerator R&D project in Europe is organizing its 4th and final Annual Meeting on 28-30 March 2017, hosted by the University of Strathclyde in Glasgow, Scotland.

The meeting will review the status of R&D in Europe and the impact of EuCARD-2 in fields as varied as high field magnets, advanced collimation materials, innovative radio-frequency technologies, novel accelerator concepts, accelerator applications, energy efficient accelerators, new accelerator designs and paths to improving performance for existing accelerators.

EuCARD-2 is co-funded by the partners and the European Commission under Capacities 7th Framework Programme, Grant Agreement 312453.
