IHEP CVMFS Stratum 1 performance testing

- New CVMFS stratum 1 at IHEP in Beijing
 - Hosts all cern.ch and egi.eu repositories as well as the opensciencegrid.org repositories that are exported to EGI, in addition to ihep.ac.cn repositories
- Looking for performance testers in Asia
 - The network to IHEP is currently heavily loaded so we'd like to find out how its performance for users in Asia compares to other Stratum 1s
 - This information will be used to decide when to add it to the default list of stratum 1s
- Contact Dave Dykstra <dwd@fnal.gov> for details if you're able to help with testing
