

CERN

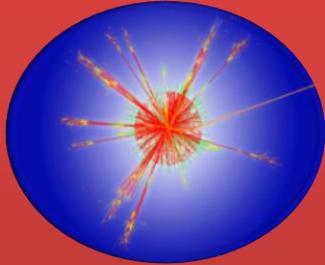

Probably one of the most
incredible experiments in the world!

Ready to take part?

CERN's Mission

- *To provide a unique range of particle accelerator facilities that enable research at the forefront of human knowledge*
- *To perform world-class research in fundamental physics*
- *To unite people from all over the world to push the frontiers of science and technology, for the benefit of all.*

The EQUIPMENT

CERN's Accelerator Complex

Accelerators

Are powerful machines capable of accelerating particles to very high energies before being collided with other particles

Detectors

Gigantic instruments that record particle collisions

Computers

To collect, store, distribute and analyze enormous quantities of data generated by detectors

CERN

Opportunities for students

We offer ~
240
positions
annually

CERN

Technical Student Programme

“ It’s a great
place to start a
career, it’s a great
place to learn new
skills and make
new friends ”

**Next application deadlines:
April 2018**

FIELDS:	Applied physics, engineering, computing
LENGTH:	4 to 12 months
ELIGIBILITY:	18 months of technical undergraduate studies
FEATURES:	A technical project with a CERN supervisor A living allowance, incl. health insurance

We offer ~

30

positions
annually

CERN

Admin Student Programme

“ My Admin
Studentship was a
great experience
– I had exposure to
more activities than I
could have imagined ”

**Next application deadlines:
April 2018**

FIELDS:

Translation, human resources, business administration, law, finance, librarianship, science communication, audiovisual, communication and public relations...

LENGTH:

2 to 12 months

ELIGIBILITY:

18 months of undergraduate studies

FEATURES:

An administrative project with a CERN supervisor - a living allowance, incl. health insurance

We offer ~
300
positions
annually

CERN

Summer Student Programme

“ Can't
imagine a
better way
to spend my
summer ”

**Opening end 2017, next application deadline:
January 2018
Open to Non Member State students**

FIELDS:	physics, engineering, computing
ELIGIBILITY:	3 years of full-time studies at university level
LENGTH:	8 to 13 weeks, during the summer
FEATURES:	High-quality lecture programs A technical project with a CERN supervisor, visits and workshops Living allowance , incl. health insurance Accommodation in CERN hostel

We offer ~

80

positions
annually

CERN

Doctoral Students

“Gave me
the opportunity to
meet important
people, especially
in the research
fields”

**Next application deadlines:
April 2018**

FIELDS: applied physics, engineering, computing

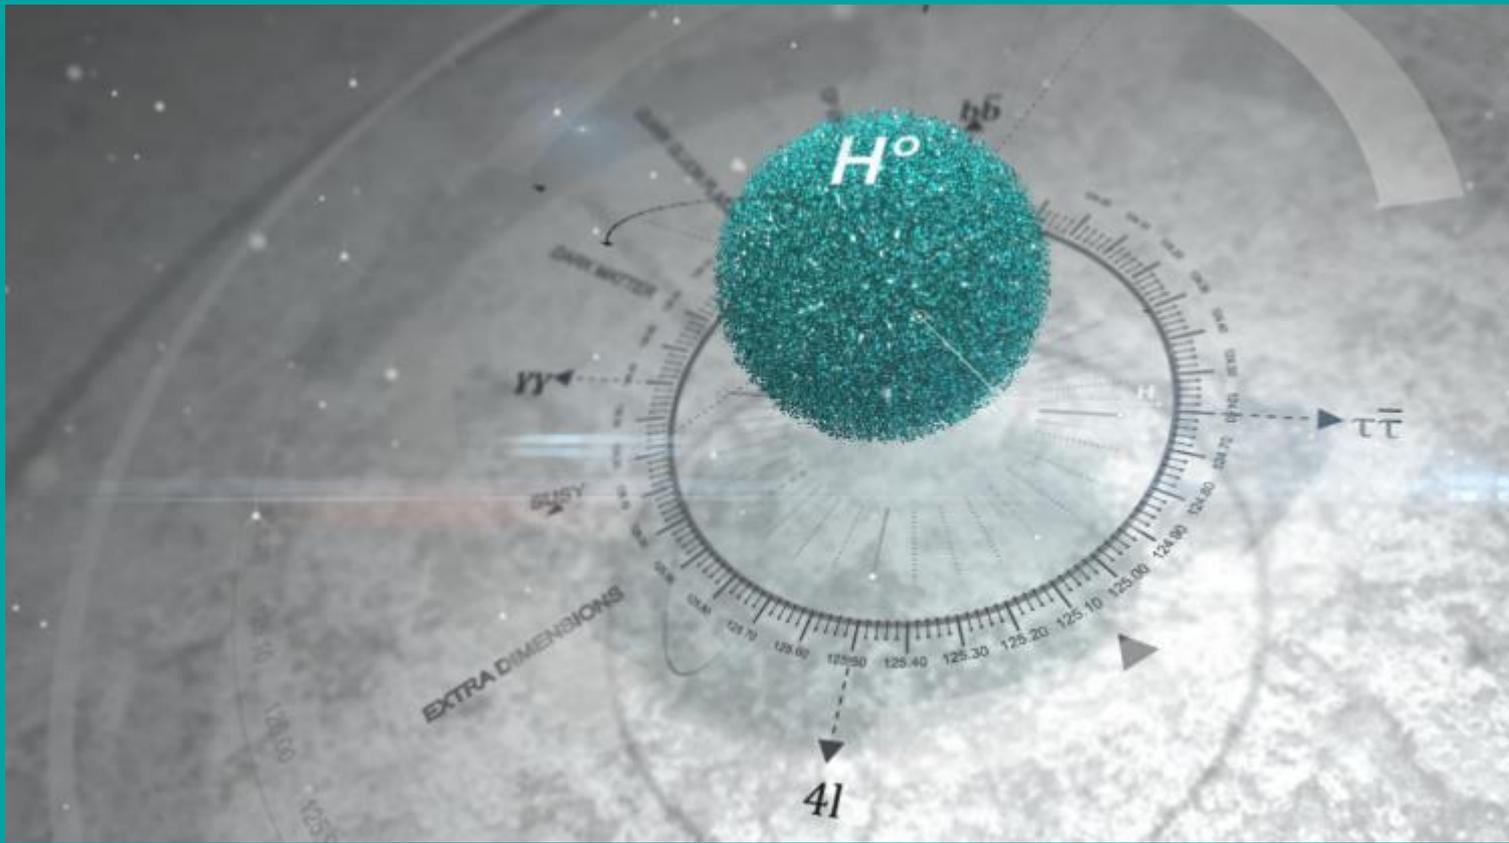

LENGTH: 1-3 years

ELIGIBILITY: enrolled in a doctoral program in
a Member State university

FEATURES: a technical project, leading to a PhD
thesis
co-supervised by the university thesis
advisor and a CERN staff member
a living allowance incl. Health insurance

CERN

Opportunities for Graduates

We offer ~
220
positions
annually

CERN

Fellowship & Graduate Engineering Training

“ An ideal place
to follow the most
recent ideas in
physics and start new
collaborations ”

**Next application deadline:
March 2018**

FIELDS:	physics, engineering, computing
ELIGIBILITY:	BSc, MSc or PhD no more than 10 years relevant post-MSc experience
SELECTION:	2 selection committees per year
FEATURES:	2-3 year employment contract - Attractive salary incl. social benefits - Training possibilities Fellows are normally nationals of the Member States of CERN. There also exist a limited number of places for Fellows from non-Member States.

CERN

Marie Skłodowska-Curie

For university graduates.

Non-member state nationals can apply!

FIELDS: physics, engineering, computing

DURATION: up to 3 years

ELIGIBILITY: MSc or PhD
≤5 years post-degree experience

FEATURES:

- Funded by the European Commission
- An employment contract with CERN
- Specific Marie-Curie vacancies published on CERN web pages
- An attractive salary, social benefits, allowances
- The chance to build an international network

We offer ~
40
positions
annually

CERN

Technician Training Experience

“ I never
imagined the
possibilities
CERN would
offer me ”

**Next application deadlines:
February 2018**

FIELDS:

Mechanics, electronics, electricity, etc.

ELIGIBILITY:

Technical diploma (Note: applicants with higher qualifications, BSc, MSc or PhD are not eligible)

no more than 4 years relevant experience after finishing your diploma

SELECTION:

All applications for TTE opportunities will be considered by a panel of CERN specialists. The panel meets four times a year.

Successful applicants will be offered appointments which should begin within six months of the meeting.

FEATURES:

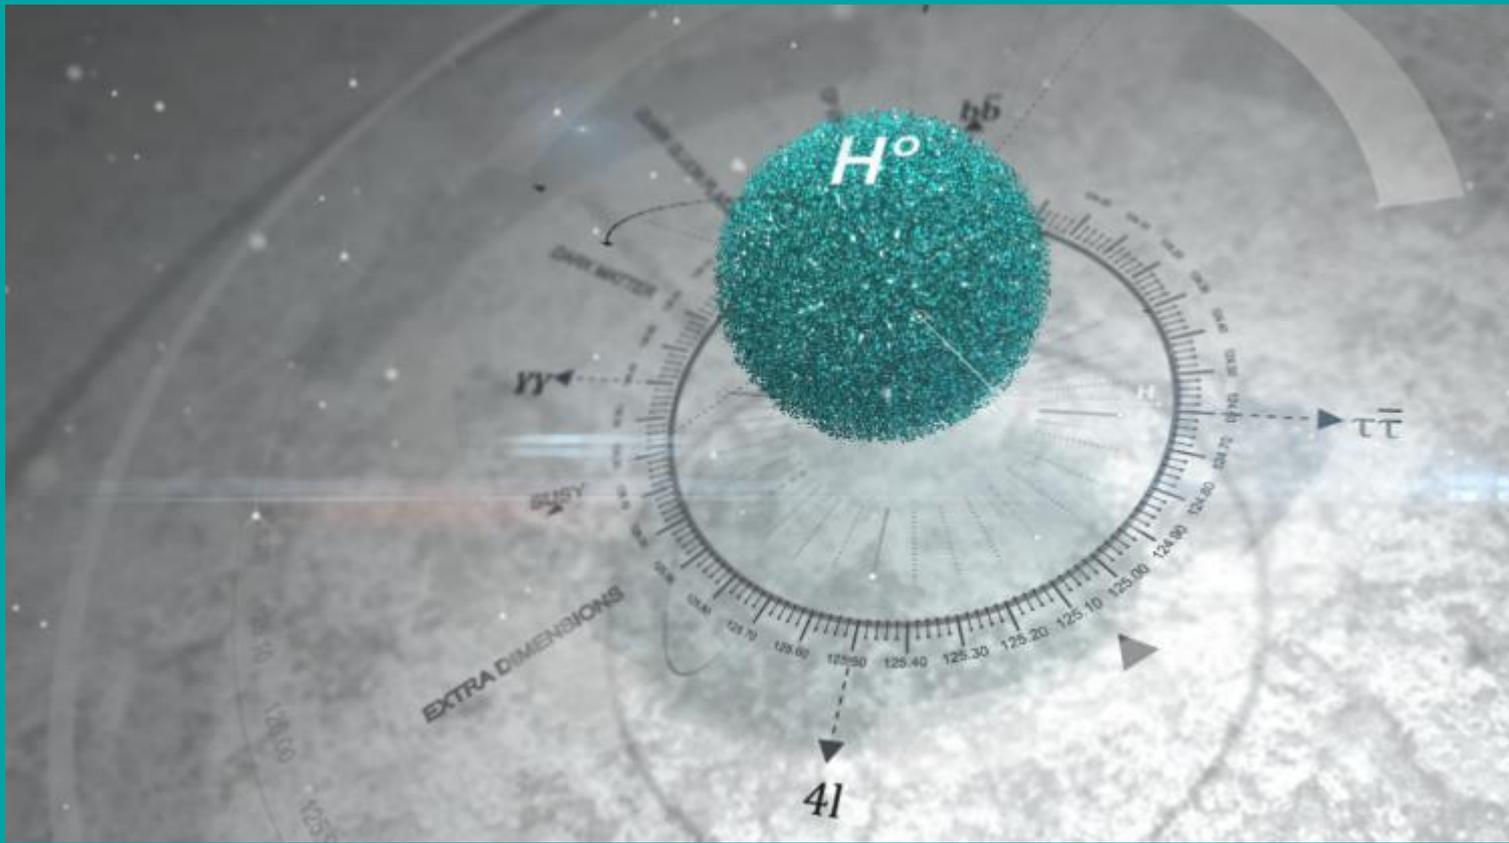

An initial contract of one year renewable for a second year

Attractive salary include social benefits

On-the-job and formal training will be provided at CERN. There are also in-house language courses for English and French

CERN

Opportunities for Professionals

We offer ~
100-150
positions
annually

CERN

Staff positions

// Imagine
the answer
suddenly becomes
clear //

**Regular publications, posts open on
average 4 weeks**

EMPLOYED MEMBERS OF PERSONNEL RECRUITED
FROM OUR 22 MEMBER STATES

Eligibility: > from apprenticeship to PhD

Selection: > vacancies published on the WEB

Features:

- Maximum 5 year contract
- Competitive salaries incl. social benefits
- Training possibilities (language courses, technical training)

CERN

Application Process

✓ **Allocate time**

A rushed application form is unlikely to succeed!

✓ **Check it**

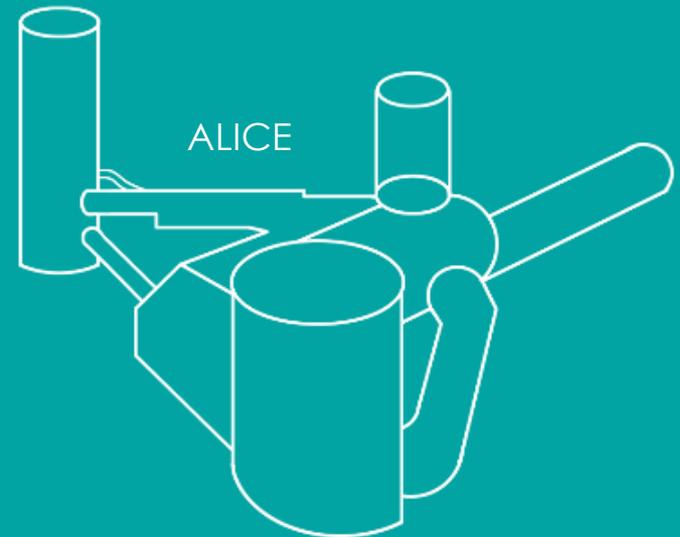

An application form with basic spelling mistakes doesn't bode well!

✓ **Motivation**

Think about why you are interested in the specific position for which you are applying

✓ **Be Honest**

Only detail skills that you actually have, not that you may acquire in the future

CERN

Careers Website

The screenshot shows the CERN Careers website interface. At the top left, it says "Careers at CERN". Below this is a navigation bar with links: "Work at CERN", "Join us", "Apply now", "Get help", "News", "Media Corner", and "Intranet". On the right side of the navigation bar, it says "Stay connected" followed by social media icons for Facebook, Twitter, LinkedIn, and YouTube.

The main content area is divided into two columns. The left column features a vertical menu with four categories: "Professionals", "Graduates", "Students", and "Associates". The right column is titled "Job Search" and contains several search filters: "Career Level" (dropdown menu showing "- Any -"), "Job Category" (dropdown menu showing "- Any -"), and "Additional Text Search" (text input field). Below these filters are "Search" and "Reset" buttons. At the bottom of the job search section, there are three links: "Current Job Opportunities", "My Profile", and "Check Jobs Status".

The background of the main content area features a notebook with handwritten text in cursive. The text includes: "Imagine being involved in the world's biggest experiment.", "Imagine taking notes in a meeting with the world's leading engineers.", "Imagine that those notes change the world.", and "Imagine there where you can...". A small white box with blue text is overlaid on the notebook, stating: "It's the chance to focus on being the very best at what you do".

Employment

CERN offers opportunities
in all fields

follow us :

CERNJOBS @CERN_JOBS

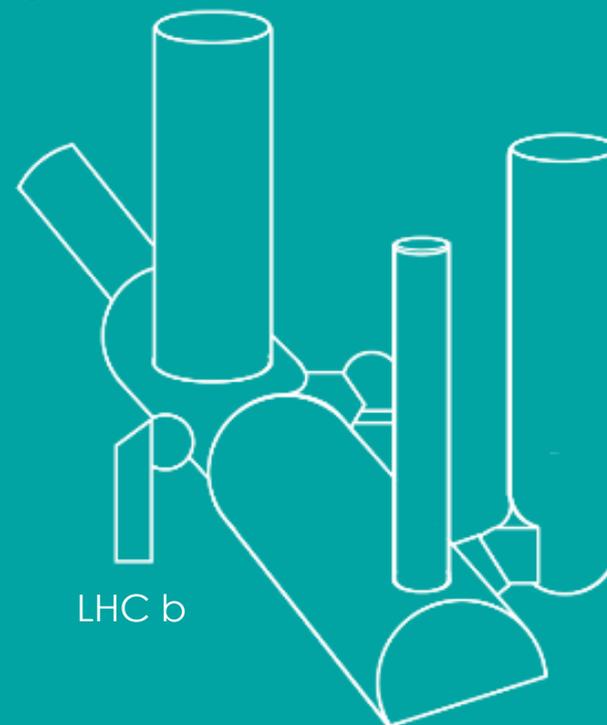

CERNJOBSTV

CERN

What you will Experience

- Be at the forefront of technology and physics
- Collaborate with multicultural and multidisciplinary teams, without political or religious barriers
- Follow experts in their technical domain
- Be part of a dynamic environment with training opportunities
- Benefit from an attractive remuneration package
- Make valuable and long-lasting contacts from all over the world
- Learn languages: CERN is a bi-lingual organization (English and French)

CERN

THANK YOU!
