 - Relevant sessions: HEP instrumentation, Radiation Damage
 - Abstract deadline: May 8
- AWLC 2017, June 26-30, SLAC/SCIPP, USA
 - Abstract deadline not yet known (typically ~ 1 month ahead)
- Other ?

Final remarks

- If you are considering attending a major conference that is of interest to FCAL, do let us know.
- Personal recommendation: Choose the less bureaucratic procedure wherever possible (e.g. When sending slides to the collaboration 2 days ahead of the talk, send directly to the collaboration mailing list.)
- Thanks to everyone sending hints about coming conferences (Yan, Wolfgang...)
