

Reassessing the exclusive determination of V_{cb}

Tuesday 18 April 2017 11:05 (23 minutes)

The determination of V_{cb} from $B \rightarrow D^* l \nu$ is reviewed in the light of a recent Belle analysis, studying the dependence on the form factor parameterisation employed and the residual uncertainty. A long lasting discrepancy between the inclusive and exclusive determinations of $|V_{cb}|$ has to be thoroughly reconsidered.
