

Session Program

21-23 Nov 2016

29th RD50 Workshop (CERN)

CMOS sensors

CERN, 6/2-024 - BE Auditorium Meyrin
6-2-024

Monday 21 November

10:15

CMOS sensors

Session | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin, 6-2-024

10:15-10:35

New results of measurements with irradiated CMOS detectors in Ljubljana

Speaker

Igor Mandic

10:35-10:55

Two Photon edge-TCT measurements of a neutron irradiated HVCMOS

Speaker

Marcos Fernandez Garcia

10:55-11:15

Edge-TCT studies of irradiated HV-CMOS sensors and first test beam results with monolithic H35demo chips

Speaker

Stefano Terzo

11:15-11:45

Discussion session: CMOS & RD50 CMOS project

Speaker

Gianluigi Casse

11:45
