# Status of GA Amendment

Mail from EU PO, 20161201:

We noted that in the proposal you sent, the number of secondments eligible for funding was reduced from 367 (original proposal) to 266,25 (number of person/months 511 as compared to 540 person/months in the original proposal).

This will as you know have an impact on the maximum grant amount/EU contribution: 1.198.125 € as compared to 1.651.500 € in the original proposal. Although the REA does not consider this good news, we tend to accept the amendment request, as it seems the only option to remedy the secondment underperformance.

Please confirm you wish to include the following new beneficiaries and 3<sup>rd</sup> country partners:

a/ new beneficiaries:

- 10 VINCA – Vinca Institute of Nuclear Sciences, University of Belgrade
- 11 TAU - Tel Aviv University
- 12 AGH – UST ( AGH University of Science and Technology)
- 13 LIVU – University of Liverpool
- 16 USTR – Université de Strasbourg
- 17 UPS – Université Paris-Sud

b/ new 3<sup>rd</sup> country partner organisations

- 14 TU - Tohoku University (JP)
- 15 KU - Kyushu University (JP)

**Good news! Validation is on the way,  
and funding can start 1 January 2017!**

## Slight re-adjustments necessary

- Many (new) partners had foreseen travelling already in November / December 2016

# Periodic (2-year) Report

Due end of December

Will probably not make it in time, but ...

Need to prepare! But ...

- ... no template
- ... no instructions
- ... no idea

**→ All WP leaders: Please provide input at the level of the mid-term report (prepared for Santander) by ... 31 Dec 2016?**

- 2 pages describing activities and results, and outlook
- Explaining status of milestones / deliverables, and explanations if late
- Important references / publications

# Annual Meeting 2017 – Suggestions?

# Procedures for Secondments

## Step 0 (important – needs to be done once!)

Make sure that your organisation is correctly registered under ECAS (EU portal) and your administrative contacts are assigned there to the project (**only a person that is added as a contact can fill in the ECAS continuous reporting**).

## Further steps:

- Make sure that the planned seconded staff is eligible (ER, ESR or “technical staff” AND employed for at least 6 months prior to secondment as FTE)
- Get green light from WP leader
- Make sure that the traveller’s data are entered in ECAS
- Register your travel with the DESY INDICO system...  
(<https://indico.desy.de/conferenceDisplay.py?confId=11459>)
- Travel
- Make sure that a researcher’s declaration on your secondment has been correctly added in the ECAS system under “continuous reporting” not later than two weeks after coming back (by you or your administrative contacts)
- Report on your secondment in the DESY INDICO reporting page  
(<https://indico.desy.de/conferenceDisplay.py?confId=12602>).
- Make sure that in any case you use the full € 2.000/per researcher month for the benefit of your seconded researcher on top of his/her regular salary. This will be checked in audits carried out after the project is finished and any infringement is considered as a breach of contract!

## Note:

- You need to get at least 30 days at each destination in Japan – otherwise your secondment is NOT eligible (= no money)!
