v6.08 Status

- CMS / TMVA: gone
- art / nan(): fixes
- ROOT-8422: LHCb / SFINAE methods: fixed
- ROOT-8264: too many open files: fixed
- ROOT-8064: excessive warnings / > 0x8000 lines: understood; delayed until after 6.08
- CMS / compile-time vs runtime compiler location: fixed

Remaining Blockers

- LHCb and CMS: error during dictionary parsing
 - sadly, seemingly unrelated
 - reported today
 - have reproducers, debugging...
- We will release this week!
 - Fix today + tomorrow; release on Friday
