BGL 17: 10th Bolyai-Gauss-Lobachevsky Conference on Non-Euclidean Geometry and its Applications

Thursday, 24 August 2017

Geometric ascpects of thermodynamics: Morning 7 - Lecture Hall 5, Main (A) Building (09:00 - 10:30)

time	[id] title	presenter
09:00	[100] Entropic Distance for Nonlinear Master Equation	Prof. BIRÓ, Tamás Sándor
09:30	[101] Geometric aspects and uses of deformed models of thermostatistics	Prof. GAVRILIK, Alexandre
10:00	[102] Uniform equivalence of two linear nonautonomous scalar differential eq	Prof. GUBINA, Elena
