

High-School Students Internship Programme

- For high-school students aged 16+
- Up to 24 high-school students each from one country in a two-week internship, lodged at the CERN Hotel. Groups need to be accompanied by two adults from their country
- The selection of the participants is done in their home country through a fair and transparent process overseen by CERN
- The programme is financed by CERN for up to five programmes per year with an option of up to five more programmes per year, if funded through the CERN & Society Foundation.
- The financing includes the travel of all participants up to 500 CHF/person, their stay in the CERN Hotel, as well as meal vouchers for the CERN Restaurants and social events.
