

Session Program

30 March 2017 to 1 April 2017

FCPPL Quarkonium Production Workshop

Proton-nucleus collisions

Peking University

B105, West Building of School of Physics (Next to the Metro Station "PKU East Gate", across the street from the main PKU entrance)

Friday 31 March

08:25

Proton-nucleus collisions

Session |
Location: Peking University, B105, West Building of School of Physics (Next to the Metro Station "PKU East Gate", across the street from the main PKU entrance)

08:30-09:10 **Quarkonium production in p(d)+A collisions at LHC and RHIC**

Speaker
Xianglei ZHU

09:15-09:45 **Theory of quarkonium production in proton-nucleus collisions**

Speaker
Hong-Fei Zhang

09:50-10:15 **Round table**

10:15-10:45 **Coffee break**

10:45-11:15 **On the Psi(2S) over J/psi production yield in pp and pA collisions**

Speaker
Dr Gines Martinez-Garcia

11:20-11:50
Cold and hot medium effects on charmonium production in 5.02 TeV p-Pb collisions

Speaker
Dr Baoyi Chen

11:55-12:30 **Round table**

12:40
