

Session Program

30 March 2017 to 1 April 2017

FCPPL Quarkonium Production Workshop

New observables

Peking University

B105, West Building of School of Physics (Next to the Metro Station "PKU East Gate", across the street from the main PKU entrance)

Saturday 1 April

14:00

New observables

Session

Location: Peking University, B105, West Building of School of Physics (Next to the Metro Station "PKU East Gate", across the street from the main PKU entrance)

14:00-14:40

Double heavy production in high energy colliders

Speaker

Dr Yiming Li

14:45-15:25

$\Upsilon+J/\psi$ and $J/\psi+J/\psi$ production at hadron colliders and double parton scattering

Speaker

Dr Yu-Jie Zhang

15:30-16:00

Round table on double HQ production

16:05-16:35

Coffee break

16:35-17:05

Stability of fully heavy tetraquarks

Speaker

Jean-Marc Richard

17:10-17:40

Associate Production of Quarkonium with a Vector Boson

Speaker

Dr Rong Li

17:45-18:15

Round table on NRQCD fits and new observables

18:15
