# Using Ansible

Robin Long
June 15, 2017

Can you build a presentation in Ansible?

- Well this would be proof
- Its is not the pretiest, but it is functional
- Assuming you use LaTeX
- Who doesn't?
- Shame on you.

Introduction

- Ansible is light and simple.
- Easy to run.
- Very customisable.
- Easy to setup.
- Very powerful.

How can ansible help?

- It will allow Grid and HEP to "Change Britains Future"
- Creating a "Strong and Stable" computing service
- so that we can have a Grid "For the Many, not the few".
- allows us to work "For the common good"

What are we doing with it?

- BDII, SQUID, and CVMFS done in
- ARGUS nearly done.
- CE is next in line.
- Trying to make these as generic as possible.
- controlled by variables

Who else is using it?

- Edinburgh
- Glasgow
- brunel

What do I want?

- More people to start using it!!
- Find out who is using ansible.
- Pool efforts.
- Central repo.
