PILOT UPDATE

PanDA Pilot v 67.2

- Hotfix release for an urgent issue with traces
 - Wrong event type sent with trace
- Release asap

PanDA Pilot v 67.3

- Relaxed checksum verification in new lsm mover
 - Verification is now up to the lsm-put (i.e. now same as in the old mover)
- Added https protocol to list of supported schemes in new GFAL mover
- Nightlies setup changes
 - Support for new timestamp directories instead of old rel_N
 - Requested by J. Elmsheuser et al
- Added taskID to tracing report
 - Requested by Rucio team
- Contributions from W. Guan, D. Cameron, P. Nilsson
- Release ASAP (Hopefully this week, testing is not finished)
