

European Strategy for Future Neutrino Physics

Thursday 1 October 2009

Introductory Session - convenor Peter Dornan - 500/1-001 - Main Auditorium (09:00 - 13:00)

time	[id] title	presenter
09:00	[0] Welcome	BERTOLUCCI, S.
09:10	[1] Aims of the workshop	DORNAN, P.
09:30	[2] Overview of the Current Situation in Neutrino & Charged Lepton sectors (25+5 min)	DE GOUVEA, A.
10:00	[3] Neutrino oscillation experiments - status and expectations over the next ~ 5 years (60+10 min)	
	- [1] Solar Experiments	RANUCCI, G.
	- [2] Reactor Experiments	LASSERRE, Th
	- [3] Accelerator Experiments	TOURAMANIS, Ch.
	- [4] Discussion	
11:10	coffee break	
11:30	[4] Neutrino mass measurement and $0\nu\beta\beta$ experiments (50+10 min)	
	- [1] Status and expectations over the next ~ 5 years	CREMONESI, O.
	- [2] Longer term prospects for $0\nu\beta\beta$ Experiments	ZUBER, K.
	- [3] Discussion	
12:30	[7] General Discussion
