

2017 CAP Congress / Congrès de l'ACP 2017

Wednesday 31 May 2017

W2-3 Neutrino Physics (PPD) | Physique des neutrinos (PPD) - Botterell B139 (11:30 - 12:30)

-Conveners: Ian Lawson

time	[id] title	presenter
11:30	[1654] Detecting Antineutrinos Using the SNO+ Detector	MEKARSKI, Pawel
11:45	[1718] Neutrino Trident Production at the Intensity Frontier	Mr MAGILL, Gabriel
12:00	[1649] Measurement of the atmospheric neutrino flux and related key parameters at 6-180 GeV in IceCube	WOOD, Tania
12:15	[1726] Direct reconstruction - an advanced event reconstruction algorithm for improved low-energy neutrino analyses with the IceCube-DeepCore detector array	NOWICKI, Sarah
