CERN Linux services status update

Monday 24 April 2017 14:30 (25 minutes)

An update on CERN Linux support distributions and services.

An update on the CentOS community and CERN involvement will be given. We will discuss software collections, virtualization and openstack SIGs and how we use them.

We will present our new puppet based configuration tool and its future.

A brief status on alternative arches (aarch64, ppc64le, etc...) work done by the community will be given.

Length of talk (minutes)

15
