Deployment of IPv6-only CPU on WLCG - an update from the HEPiX IPv6 Working Group

Tuesday, 25 April 2017 16:15 (25 minutes)

This update from the HEPiX IPv6 Working Group will present activities during the last 6-12 months. In September 2016, the WLCG Management Board approved the group's plan for the support of IPv6-only CPU, together with the linked requirement for the deployment of production Tier 1 dual-stack storage and other services. This talk will remind HEPiX of the requirements for support of IPv6 and the deployment timelines of the plan. The current status will be presented including dual-stack storage deployment at the WLCG Tier 1s as will the strategy for deployment at Tier 2s.

Length of talk (minutes)

20
