CERN IT-Storage Strategy Outlook

Wednesday, 26 April 2017 09:00 (25 minutes)

The IT-Storage group at CERN is responsible for the operations and the development of the infrastructure to accommodate all the storage requirements from the physics data generated by LHC and non-LHC experiments to the personnel users' files.

This presentation will give an overview of the solutions operated by the group, current and future developments, highlighting the group strategy to tackle future needs.

Length of talk (minutes)

20

Scheduling constraints / preferences

Primary authors: MASCETTI, Luca (CERN); LEDUC, Julien (CERN); PACE, Alberto (CERN)

Presenters: MASCETTI, Luca (CERN); LEDUC, Julien (CERN)

Session Classification: Storage, file systems and data management

Track Classification: Storage & Filesystems
