

# T1/T2 workshop summary

T1/T2 workshop - Strasbourg

5 May 2017  
Latchezar Betev

# Stats

- 53 participants
- 34 presentations
  - 16 regional/site reports
  - 16 Middleware/general operations/future/research

# General

- Year 3 of Run 2 is starting tomorrow
- Computing model remains unchanged
  - ... but we have some worries with resources
  - With your help and some hard work, hopefully surmountable
- Should not dampen the good atmosphere and positive outcome of this workshop

# Grid

- Operations are smooth in all aspects
- Stability and efficiency still has some room for improvement
  - Goal for the storage is >95%
  - New goodies in EOS can help!
- New tools to make the site administration more elegant and easy
  - Improvement over existing system, some being aggressively adopted in entire regions
  - VCycle/VAC, HTCondor, ARC, Containers

# Social

- A pleasure to be in the beautiful city of Strasbourg and be hosted by IPHC
- City with incredible history, proudly presented and visible from everywhere

# Underground

# The traditional ~~bowling~~ pouring

Thank you all for coming  
Thanks to all contributors
