

Workshop of the International Particle Physics Outreach Group (IPPOG) on High School Cosmic Ray Experiments

*Museo Storico della Fisica e Centro Studi e Ricerche Enrico Fermi (Centro Fermi)
Rome, Italy
15th -16th February 2017*

How to get to Centro Fermi:

From Fiumicino airport you can take the “Leonardo” train to get to Termini Station. Centro Fermi is about 10 min walk from Termini Station, inside the Italian Ministero dell’Interno (see map1).

At the main entrance of the Ministero dell’Interno in Piazza del Viminale, n° 1 – 00184 – Roma you should leave your documents and get a badge at the “Ufficio Passi”: you should specify you are guests of the Centro Fermi and they will check with the list of participants. Luggage control will be required.

Twenty minutes before the morning session starts, someone will be at the “Ufficio passi” and bring you where the workshop will take place, at the “Palazzina F - Sala Conferenze - Lato Ragioneria”, located inside the “Compendio del Viminale” (see map2). If you arrive in different hours, when you are at the “Ufficio Passi” you should call the workshop secretariat and someone will pick up you.
