

Session Program

25-27 Jun 2009

LHeC Pre-meeting: Small x and high parton densities

Physics at low- x , unitarity, saturation

CERN, 14/4-030

Friday 26 June

09:00

Physics at low-x, unitarity, saturation

Session | Location: CERN, 14/4-030

09:00-09:30

Overall status of the LHeC

Speaker

Max Klein

10:00-10:20

Introduction to the chapter of the CDR

Speaker

Anna Stasto

10:40-11:40

Leading twist theory predictions for LHeC and probes of the onset of the black disk regime

Speaker

Mark Strikman

12:30
