

# **CLIC Two-Beam Module Review**

**Tuesday, September 15, 2009 - Wednesday, September 16, 2009**

**CERN**

## **Scientific Program**

The program is divided in the following sessions:

## **Introduction (Charge to CDR and module overview)**

## **Requirements from beam physics and RF structures**

## **Technical system design: baseline and possible alternatives**

## **Integration (technical systems in the module and module in the tunnel)**

## **Validation (mock-ups before CDR and test modules in CLEX after CDR)**

## **Cost issues**

## **Conclusions and future actions**
