

3rd Workshop
20-22 March 2017

Special Issue on “Metrology for Particle Accelerators”

IOP Measurement Science and Technology

Guest Editors: Pasquale Arpaia and Stephan Russenschuck

IOP
Publishing

General info

The best subjects of the Workshop will be selected and invited to send a full paper in a special issue of the scientific journal [“IOP Measurement Science & Technology”](#).

Measurement Science and Technology

Launched in 1923 *Measurement Science and Technology* was the world's first scientific instrumentation and measurement journal and the first research journal produced by the Institute of Physics. It covers all aspects of the theory, practice and application of measurement, instrumentation and sensing across science and engineering. The journal publishes original research articles, technical design notes, topical reviews and editorial perspectives. It welcomes special issues and features, including conference papers. The acceptance rate of less than 1 in 3 reflects the high standing of the journal.

General info

Instrumentation & Measurement
for Particle Accelerator Lab

IMPALA

The Special Issue will host contributions on “Metrology for Particle Accelerators”, which includes all the topics related to the PACMAN project, namely, metrology and micrometric alignment, magnetic measurements, nano-positioning and vibration measurements, microwave measurements.

Thanks for your attention
