We have to add in the proposal the details of the following questions:

1.) Explain where the students local and international will stay.
Clarify the cost per night per student. Also clarify the cost for catering per student per day.

2.) Please explain where the lecturers will be staying, and clarify the accommodation cost per night for the lecturers

- **Please note,**
- **The International Organizing Committee (IOC) and the International Advisory Committee (IAC) ask if we can**

  negotiate for these reduced costs:
  https://ketevi.web.cern.ch/ketevi/ASP/ASP-Venue-Selection.pdf

3.) Explain how far will be the student and lecturer's accommodations from the lecture hall

4.) Please explain a bit more the facility at the venue: the capacity of the lecture hall, addition rooms for parallel sessions, the lecturing and conferencing equipment's. Internet connectivity: upload and download speeds, stability of electricity supply (do you explain any electrical power outages during the school, do we need to plan for generators in case of power outage?)

5.) Please approach the Moroccan Ministry of Education and/or the appropriate branch of the Moroccan government and get them involved in the LOC (Local Organising Committee)

6.) Please provide a complete list of the of the members of the LOC. We suggest that you seek and include members of the Ministry of Education.

7.) Please explain and confirm how you will get this contribution from the Moroccan government or from the local institutes within Morocco. When do you think you will have confirmation of this support?
