

3rd HiLumi Industry Day - May 2017 - Warrington - United Kingdom

Registrants Book

Table of contents

Oliver Aberle	1
Marcos Fabian Alazraki	2
Alexandra Alexandrova	3
Asier Alfonso Ares	4
Philip Patrick Allport	5
Robert Appleby	6
Peter Astbury	7
Tahmina Aziz	8
Guillermo Barredo	9
Neil Bartlett	10
Allanah Bayliss	11
Isabel Bejar Alonso	12
Tim Bestwick	13
Amy Bilton	14
Nicky Bladen-Hovell	15
Phil Bocking	16
Mathieu Breukers	17
Krzysztof Brodzinski	18
Graeme Burt	19
Mark Butcher	20
Marcela Caballero	21
Joaquín Cabezas	22
Dusan Cani	23
Miguel Castano	24
Sophie Catuogno	25
Alikaan Ciftci	26
Guillaume Coccia	27
Paul Collier	28

Roberto Cometti	29
Cees Coolen	30
Robert Copley	31
Calum Courtney	32
Alan Crow	33
Michael Daly	34
Paul Davies	35
Richard Davies	36
Paul Dorrington	37
Chris Easton	38
Alex Estevez	39
John Falch	40
Francisco Javier Fariñas	41
Juliette Forneris	42
Peter Forrest	43
Arnaud Foussat	44
Ben Francis	45
Peter Francis	46
Ravot Frederic	47
Marcel Fuerst	48
Robert Gabrielczyk	49
Mark Gallilee	50
Quentin Gambier	51
Alberto Garbayo	52
Angel Garcia	53
Hector Garcia Gavela	54
Julie Gilbert	55
Guido Giorgi	56
Anthony Gleeson	57
Mark Glynn	58
Matthew Goldsworthy	59
Rupert Gordon	60
Andreas Gougas	61
Engin Gozukucuk	62

Dale Gwinnutt	63
Andrew Hales	64
Anna Hall	65
Jan Hansen	66
Andy Hassall	67
Nils Hassel	68
Ian Hastings	69
Armand Hattat	70
Paul Hawes	71
Tim Hawley-Jones	72
Pavel Hedbavny	73
Christer Herrström	74
Stephanie Hills	75
Martin Hodges	76
Malcolm Hohls	77
Adam Horridge	78
Tom Houlden	79
Paul Hulse	80
Rafael Iturbe	81
Thomas Jones	82
Edward Jordan	83
Pierre-Yves JULIEN	84
Jeremy Kemsley-Pein	85
Fiona Kerr	86
Hakan Kiziltoprak	87
Andrea Lanaro	88
Mats Larsson	89
Subomi Latinwo	90
Stephen Lawes	91
Tamara Leitan	92
Samuel Leveque	93
John F Lewis	94
Leona Lilford	95
Miguel Lino Diogo dos Santos	96

Delyth Lloyd	97
Stephen Loader	98
Ivo Lobmaier	99
Christian Hannes Loffler	100
Reimund Lotz	101
Susie Lynn	102
Lewis MacFarlane	103
Russell Magee	104

Registrant ID: 170

Oliver Aberle

Title: Mr.

First Name: Oliver

Surname: Aberle

Email Address: oliver.aberle@cern.ch

Institution/Company: CERN

Position: Mech. Engineer

Country: Switzerland

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.cern.ch

Please describe briefly the main domain of activity of your company: Particle physics

Registrant ID: 184

Marcos Fabian Alazraki

Title: Mr.

First Name: Marcos Fabian

Surname: Alazraki

Email Address: marcos@teknika4.com

Institution/Company: TEKNIKA4 INGENIERIA GLOBAL S.L.

Position: President

Country: Spain

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Raw materials

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.teknika4.com/>

Please describe briefly the main domain of activity of your company: Teknika4 is a provider/manufacturer of aerospace grade raw materials, CNC machined metallic components, and composite structures. Our engineering team specializes in designing and fabricating electro-mechanical systems, welded structures, and rapid manufacturing of specialty toolings.

Registrant ID: 142

Alexandra Alexandrova

Title: Dr.

First Name: Alexandra

Surname: Alexandrova

Email Address: a.alexandrova@liverpool.ac.uk

Institution/Company: D-Beam (Cockcroft Institute)

Position: CEO

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.d-beam.co.uk

Please describe briefly the main domain of activity of your company: charged beam instrumentation; beam loss monitors

Registrant ID: 121

Asier Alfonso Ares

Title: Mr.

First Name: Asier

Surname: Alfonso Ares

Email Address: asier.alfonso@aernnova.com

Institution/Company: AERNNOVA Engineering Division

Position: Business Development Engineer

Country: Spain

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://www.aernnova.com/es/>

Please describe briefly the main domain of activity of your company: Engineering Services in Design, Stress, Processes, Materials, Laboratory Tests, Management, I+D+i

Registrant ID: 261

Philip Patrick Allport

Title: Prof.

First Name: Philip Patrick

Surname: Allport

Email Address: philip.patrick.allport@cern.ch

Institution/Company: University of Birmingham

Position: Director of Birmingham Instrumentation Laboratory for Particle Physics and Applications

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.ep.ph.bham.ac.uk/

Please describe briefly the main domain of activity of your company: Research and Higher Education

Registrant ID: 255

Robert Appleby

Title: Dr.

First Name: Robert

Surname: Appleby

Email Address: robert.appleby@manchester.ac.uk

Institution/Company: University of Manchester

Position: Reader

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: -

Please describe briefly the main domain of activity of your company: -

Registrant ID: 44

Peter Astbury

Title: Mr.

First Name: Peter

Surname: Astbury

Email Address: ecodynamics@btinternet.com

Institution/Company: Ecodynamics

Position: MD

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Cryogenics systems, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.daresbury-energy.co.uk

Please describe briefly the main domain of activity of your company: Low energy raising of liquid temperature.

Registrant ID: 157

Tahmina Aziz

Title: Mrs.

First Name: Tahmina

Surname: Aziz

Email Address: tahmina.aziz@stfc.ac.uk

Institution/Company: STFC

Position: Tender Opportunities Team

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.stfc.ac.uk

Please describe briefly the main domain of activity of your company: helping STFC Tenders Opportunities team

Registrant ID: 199

Guillermo Barredo

Title: Mr.

First Name: Guillermo

Surname: Barredo

Email Address: g.barredo@gmail.com

Institution/Company: MEFABI, S.L.

Position: International technical and commercial adviser

Country: Spain

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.mefabi.com

Please describe briefly the main domain of activity of your company: Machining & assemblies for components and machines.

Registrant ID: 190

Neil Bartlett

Title: Mr.

First Name: Neil

Surname: Bartlett

Email Address: neil.bartlett@trackwise.co.uk

Institution/Company: Trackwise

Position: Business Development

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, Magnets components & assemblies

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.trackwise.co.uk

Please describe briefly the main domain of activity of your company: Trackwise is a UK-based specialist manufacturer of products using printed circuit technology including a large format production capability of up to 2.8 metres (NPTH) and flexible multilayer PCBs of unlimited length.

Registrant ID: 42

Allanah Bayliss

Title: Ms.

First Name: Allanah

Surname: Bayliss

Email Address: allanah.bayliss@stfc.ac.uk

Institution/Company: STFC

Position: Business Opportunities Specialist

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site:
<http://www.stfc.ac.uk/innovation/tender-opportunities/>

Please describe briefly the main domain of activity of your company: n/a

Registrant ID: 4

Isabel Bejar Alonso

Title:

First Name: Isabel

Surname: Bejar Alonso

Email Address: isabel.bejaralonso@cern.ch

Institution/Company: CERN

Position: HL-LHC Configuration, Quality & REsources Officer

Country: Switzerland

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://www.cern.ch>

Please describe briefly the main domain of activity of your company: The European Organization for Nuclear Research (French: Organisation européenne pour la recherche nucléaire), known as CERN, is a European research organization that operates the largest particle physics laboratory in the world. Established in 1954, the organization is based in a northwest suburb of Geneva on the Franco–Swiss border, and has 22 member states.

Registrant ID: 212

Tim Bestwick

Title: Dr.

First Name: Tim

Surname: Bestwick

Email Address: tim.bestwick@stfc.ac.uk

Institution/Company: STFC

Position: STFC Executive Director of Business and Innovation

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <https://www.stfc.ac.uk/>

Please describe briefly the main domain of activity of your company: Firstly, we support world-leading, cutting-edge, frontier research with our university partners. Secondly, by providing access to large-scale scientific facilities, we support interdisciplinary research that spans a range of physical and life sciences. Thirdly, we help businesses thrive, promoting academic and industrial collaboration and encouraging translation of our research to market applications, through all of our programmes, particularly the Science and Innovation Campuses.

Registrant ID: 265

Amy Bilton

Title:

First Name: Amy

Surname: Bilton

Email Address: amy.bilton@cern.ch

Institution/Company: CERN

Position: Knowledge Transfer Officer

Country: Switzerland

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Cryogenics systems, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: cern.ch/kt

Please describe briefly the main domain of activity of your company: The Knowledge Transfer Group aims to optimize the impact of CERN's science, technology and know-how on society. Towards this mission, our network of Business Incubation Centres (BICs) assists entrepreneurs and small high-tech businesses in taking innovative technologies from initial concept to market. The UK BIC combines the incubation experience of the Science and Technology Facilities Council (STFC) with the unique opportunity to access STFC and CERN intellectual property (IP), technologies and expertise.

Registrant ID: 53

Nicky Bladen-Hovell

Title: Mrs.

First Name: Nicky

Surname: Bladen-Hovell

Email Address: nicky.bladen-hovell@stfc.ac.uk

Institution/Company: STFC

Position: STFC

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://www.stfc.ac.uk/>

Please describe briefly the main domain of activity of your company: STFC - fund university based research, large scale scientific facilities, national campuses and inspire future scientists

Registrant ID: 148

Phil Bocking

Title: Mr.

First Name: Phil

Surname: Bocking

Email Address: phil.bocking@howcogroup.com

Institution/Company: HOWCO GROUP (Bredbury)

Position: Business Development Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Raw materials, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.howcogroup.com>

Please describe briefly the main domain of activity of your company: Manufacturers of Assemblies for the Scientific & Semi-Conductor Industries.

Registrant ID: 47

Mathieu Breukers

Title: Mr.

First Name: Mathieu

Surname: Breukers

Email Address: mathieu.breukers@vdletg.com

Institution/Company: VDL

Position: Manufacturing engineer

Country: Netherlands

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.vdletg.com

Please describe briefly the main domain of activity of your company: Manufacturing and assembly of high precision parts

Registrant ID: 99

Krzysztof Brodzinski

Title:

First Name: Krzysztof

Surname: Brodzinski

Email Address: krzysztof.brodzinski@cern.ch

Institution/Company: CERN

Position: Cryogenic engineer

Country: Switzerland

Please specify the technology domains you would like to discuss.: Cryogenics systems, Cryostats & subcomponents for cryo equipment

Are you registered as a CERN supplier?:

Please add the link to your company internet site: cern.ch

Please describe briefly the main domain of activity of your company: cern.ch

Registrant ID: 218

Graeme Burt

Title: Dr.

First Name: Graeme

Surname: Burt

Email Address: graeme.burt@cockcroft.ac.uk

Institution/Company: Lancaster University

Position: Senior Lecturer

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Cryogenics systems, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?:

Please add the link to your company internet site: <http://www.lancaster.ac.uk/>

Please describe briefly the main domain of activity of your company: University

Registrant ID: 211

Mark Butcher

Title: Mr.

First Name: Mark

Surname: Butcher

Email Address: mark.butcher@cern.ch

Institution/Company: CERN

Position: Engineer

Country: Switzerland

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: -

Please describe briefly the main domain of activity of your company:
Mechatronics/Electromechanical engineering

Registrant ID: 62

Marcela Caballero

Title: Ms.

First Name: Marcela

Surname: Caballero

Email Address: marcela.caballero@alpiq.com

Institution/Company: Alpiq Infra AG

Position: Business Development Engineer

Country: Switzerland

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Electro-mechanics, electronics & instrumentation, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.alpiq-infra.ch

Please describe briefly the main domain of activity of your company: Building and Infrastructure Technology Specialist: We provide integrated comprehensive solutions for the planning, implementation and management of demanding construction projects in the areas of transport and infrastructure. In doing so, we harness all the skills of the extensive Alpiq Group as well as those of our partners. Our core competence is the development of customised and comprehensive integrated solutions for the customer-specific and economically optimised planning and realisation of buildings and systems. Thanks to our comprehensive project management and clearly defined responsibilities, we ensure the smooth technical, economic and organisational execution of the entire construction project with costs, deadlines and outstanding quality guaranteed. With our services from a single source, we are your reliable partner as a general and full-service contractor. Transparent organisation allows projects to be efficiently planned, managed and controlled at every single stage. As a result, we reach your goal step by step together with you. One of our Reference Projects: Gottard Basis Railway High Speed Tunnel between Switzerland and Italy

Registrant ID: 165

Joaquín Cabezas

Title: Mr.

First Name: Joaquín

Surname: Cabezas

Email Address: joaquin.cabezas@carbures.com

Institution/Company: Carbures Defense SAU

Position: Business Development

Country: Spain

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.carbures.com>

Please describe briefly the main domain of activity of your company: CARBURES is a technological industrial group specialized in the manufacturing of composite parts and structures and in designing engineering systems, which operates in the aerospace, automotive, civil works, railway and security industries.

Registrant ID: 159

Dusan Cani

Title: Mr.

First Name: Dusan

Surname: Cani

Email Address: canid@ztsvvu.eu

Institution/Company: ZTS VVU Kosice a.s.

Position: Control System Designer

Country: Slovakia

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.ztsvvu.eu>

Please describe briefly the main domain of activity of your company: We are company, which is working in field of robotics, precision manipulations, positioning and many kind of special and very precise equipment.

Registrant ID: 129

Miguel Castano

Title:

First Name: Miguel

Surname: Castano

Email Address: miguel.castano.arques@cern.ch

Institution/Company: CDTI

Position: Spanish ILO Deputy

Country: Spain

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Collimators & heat resistant materials, Cryogenics systems, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies, Raw materials, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <https://www.cdti.es/>

Please describe briefly the main domain of activity of your company: CDTI is the government institution in charge, among other things, of the relationships between Spain and the Large Scientific Facilities. In this regard, CDTI appoints one representative in CERN to foster the Spanish participation, and to maximize the return - wheter it be industrial, ecomic or in knowledge transfer.

Registrant ID: 263

Sophie Catuogno

Title: Mrs.

First Name: Sophie

Surname: Catuogno

Email Address: s.catuogno@acs-chaudronnerie.com

Institution/Company: ACS (Atelier Chaudronnerie de Sassenage)

Position: PDG

Country: France

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Collimators & heat resistant materials, Cryogenics systems, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://acs-chaudronnerie.com/>

Please describe briefly the main domain of activity of your company: With 50 years of experience, ACS provides its clients with the expertise and know-how to meet the most stringent requirements. We ensure our clients' satisfaction thanks to our mastery of a variety of metalwork processes. Thanks to our expertise, ACS is AFAQ ISO 9001 certified for all metalwork and welding projects.

Registrant ID: 126

Alikaan Ciftci

Title: Mr.

First Name: Alikaan

Surname: Ciftci

Email Address: alikaan@bayramogluinsaat.com.tr

Institution/Company: Bayramoğlu Steel & Construction Co.

Position: Vice President

Country: Turkey

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.bayramogluinsaat.com.tr

Please describe briefly the main domain of activity of your company: Our company-facility, located in Bursa/TURKEY which is operating for nearly 50 years and keeps experience and expertise together, started the commercial life with the determined effort of our founder Ahmet Bayramoğlu in 1960s and it succeeded a big advance by continuous development and took the name of BAYRAMOĞLU STEEL CONSTRUCTION AND CONTRACTING CO. in 1983. Beside the steel construction manufacturing and erection works which are continuing for 50 years with the experienced and expert staff, our company are doing successfully internal kitsets manufacturing for wind turbines, groundwork construction of industry and heavy industry facilities, machine equipment assembly, projects of total construction, reinforced concrete, prefabric and its all equipments with complete turnkey. Also we would like to tell that we, Bayramoğlu Steel & Construction Co., are approved supplier of Siemens (Through steel works and mechanical internals for wind turbines scopes), General Electric (Through mechanical internals for wind turbines scope), Robert Bosch (General Supplier), Gestamp (Through steel works and mechanical internals for wind turbines scopes) beside being solution partner of such huge companies Renault, Borusan, TOFAS through steel & construction and piping works. We have capabilities of carbon steel, stainless steel and aluminum sand-blasting, cutting, bending, drilling, coating and welding. Our latest huge references are turnkey construction of Brake Systems Facility(BuP1) of Robert Bosch /Bursa-Turkey in 38weeks and steel roof construction of Beşiktaş Vodafone Arena stadium.

Registrant ID: 266

Guillaume Coccia

Title: Mr.

First Name: Guillaume

Surname: Coccia

Email Address: g.coccia@acs-chaudronnerie.com

Institution/Company: ACS (Atelier Chaudronnerie de Sassenage)

Position: Technical manager

Country: France

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Collimators & heat resistant materials, Cryogenics systems, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://acs-chaudronnerie.com/>

Please describe briefly the main domain of activity of your company: With 50 years of experience, ACS provides its clients with the expertise and know-how to meet the most stringent requirements. We ensure our clients' satisfaction thanks to our mastery of a variety of metalwork processes.

Registrant ID: 207

Paul Collier

Title: Prof.

First Name: Paul

Surname: Collier

Email Address: paul.collier@cern.ch

Institution/Company: CERN

Position: Beams Department Head

Country:

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: -

Please describe briefly the main domain of activity of your company: -

Registrant ID: 134

Roberto Cometti

Title: Mr.

First Name: Roberto

Surname: Cometti

Email Address: r.cometti@vaqtec.com

Institution/Company: Vaqtec srl

Position: Managing Director

Country: Italy

Please specify the technology domains you would like to discuss.: Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.vaqtec.com

Please describe briefly the main domain of activity of your company: Manufacturing and distributing of vacuum components and custom parts

Registrant ID: 48

Cees Coolen

Title: Mr.

First Name: Cees

Surname: Coolen

Email Address: cees.coolen@vdletg.com

Institution/Company: VDL

Position: Accountmanager

Country: Netherlands

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Cryostats & subcomponents for cryo equipment, High precision assembling & manufacturing, Magnets components & assemblies, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.vdletg.com

Please describe briefly the main domain of activity of your company: High precision parts, ultra high vacuum components, clean room assembly,

Registrant ID: 31

Robert Copley

Title: Mr.

First Name: Robert

Surname: Copley

Email Address: larkwood35055@me.com

Institution/Company: Midel

Position: Sales Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.midel.com

Please describe briefly the main domain of activity of your company: Fire proof Biodegradable Dielectric and cooling liquid

Registrant ID: 14

Calum Courtney

Title: Mr.

First Name: Calum

Surname: Courtney

Email Address: calum@aeon-eng.com

Institution/Company: Aeon Engineering Ltd.

Position:

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.aeon-eng.com

Please describe briefly the main domain of activity of your company: Mechanical design, analysis, systems engineering and project management

Registrant ID: 103

Alan Crow

Title: Mr.

First Name: Alan

Surname: Crow

Email Address: acrow@hvwooding.co.uk

Institution/Company: H.V.Wooding Ltd.

Position: Technical Support Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Magnets components & assemblies

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.hvwooding.co.uk

Please describe briefly the main domain of activity of your company: Sub-contract manufacturer of metal pressings, busbars and sub-assemblies. Yokes, collars and metal laminations for magnet assemblies for scientific establishments. Pressing, wire erosion, laser cutting, CNC machining, plating, sub-assembly services offered.

Registrant ID: 101

Michael Daly

Title: Dr.

First Name: Michael

Surname: Daly

Email Address: michael.daly@cern.ch

Institution/Company: CERN

Position: Senior Fellow

Country: Switzerland

Please specify the technology domains you would like to discuss.: High precision assembling & manufacturing, Magnets components & assemblies, Raw materials

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <https://home.cern/>

Please describe briefly the main domain of activity of your company: CERN TE-MSCLMF:
Fabrication and maintenance of magnets

Registrant ID: 234

Paul Davies

Title: Mr.

First Name: Paul

Surname: Davies

Email Address: paul.davies@pfeiffer-vacuum.co.uk

Institution/Company: Pfeiffer Vacuum

Position: Sales Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.pfeiffer-vacuum.com

Please describe briefly the main domain of activity of your company: Manufacturer of medium, high and ultra high vacuum products

Registrant ID: 17

Richard Davies

Title: Mr.

First Name: Richard

Surname: Davies

Email Address: rdavies@mdcvacuum.co.uk

Institution/Company: MDC Vacuum Ltd

Position: Technical Director

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.mdcvacuum.com

Please describe briefly the main domain of activity of your company: Design and manufacture of UHV chambers, mechanisms and systems. Complete catalogue range of standard vacuum parts.

Registrant ID: 25

Paul Dorrington

Title: Mr.

First Name: Paul

Surname: Dorrington

Email Address: paul.dorrington@pfl-rmf.co.uk

Institution/Company: Portobello - RMF Engineering Ltd.

Position: Sales & Business Development Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Cryostats & subcomponents for cryo equipment, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.pfl-rmf.co.uk

Please describe briefly the main domain of activity of your company: Design and fabrication of high integrity welded structures, such as pressure vessels, reactors, heat exchangers, and other bespoke equipment.

Registrant ID: 133

Chris Easton

Title: Mr.

First Name: Chris

Surname: Easton

Email Address: ceaston@baldwinandfrancis.com

Institution/Company: Baldwin & Francis Ltd

Position: Bid Development Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.baldwinandfrancis.com

Please describe briefly the main domain of activity of your company: Design, Manufacture, Installation, Commissioning and Onward Support of High Integrity Electrical Supply, Control, Switchgear and Distribution, for Safe and Hazardous Areas

Registrant ID: 232

Alex Estevez

Title: Mr.

First Name: Alex

Surname: Estevez

Email Address: alex.estevez@tecnalia.com

Institution/Company: TECNALIA

Position: Project Manager

Country: Spain

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Collimators & heat resistant materials, Cryogenics systems, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.tecnalia.com>

Please describe briefly the main domain of activity of your company: At TECNALIA we anticipate future challenges to view, identify and implement technological, imaginative and creative solutions providing added value and producing real results. With our global presence, we transform knowledge into GDP to improve people's quality of life by generating business opportunities for companies. TECNALIA VALUE® is our business offer, oriented to the needs of companies. An offer allowing us to face challenges and complex issues, developing with our customers personalised solutions so that they can deploy their full potential, be more competitive and cost-effective.

Registrant ID: 201

John Falch

Title: Mr.

First Name: John

Surname: Falch

Email Address: john.falch@jfnl.co.uk

Institution/Company: James Fisher Nuclear Ltd

Position: Bid Development Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.jfnl.co.uk

Please describe briefly the main domain of activity of your company: JFN is a provider of niche services & equipment for use in adverse environmental conditions (nuclear and oil & gas). The company has an established track record for delivery to EDF, Magnox, Sellafield, Dounreay & Winfrith for in excess of 25 years. Equipment comprises: Remote Mechanical Handling (manipulators, tooling, deployment platforms), Remote Inspection, Remote Welding, Radioprotection and dosimetry instrumentation systems, Body contamination monitors, Modular Facilities, Decontamination, Radiation Tolerant Electrical Equipment & Test Rigs. Services comprise: Design (mechanical, EC&I; & software), Analysis, Manufacture (CNC machine shop), Assembly, Test (rig halls), Operator Training, Site Technical Support, NDT Site Inspection, Site Surveys (CCTV, laser, sonar), Engineering substantiation (mechanical and EC&I;), Project Management, Sub-contractor & sub-supplier control, Site installation, Testing& Commissioning, Staff training, Procurement.

Registrant ID: 196

Francisco Javier Fariñas

Title: Mr.

First Name: Francisco Javier

Surname: Fariñas

Email Address: javier@mefabi.com

Institution/Company: MEFABI, S.L.

Position: General Manager

Country: Spain

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Cryogenics systems, Cryostats & subcomponents for cryo equipment, High precision assembling & manufacturing, Magnets components & assemblies, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.mefabi.com

Please describe briefly the main domain of activity of your company: Machining & Assemblies for Components and Machines.

Registrant ID: 258

Juliette Forneris

Title: Dr.

First Name: Juliette

Surname: Forneris

Email Address: jfor@dti.dk

Institution/Company: Danish Technological Institute

Position: Cluster Manager of BigScience.dk - CERN ILO for DK

Country: Denmark

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies, Ultra high vacuum components & systems

Are you registered as a CERN supplier?:

Please add the link to your company internet site: <http://www.bigscience.dk/english/>

Please describe briefly the main domain of activity of your company: BigScience.dk works to promote Danish skills and know-how on the Big Science market. We coordinate a network composed of highly qualified companies able to deliver products and services matching the needs of Big Science organisations and their prime contractors. We also help Big Science organisations and European companies find relevant Danish suppliers for Big Science bids.

Registrant ID: 82

Peter Forrest

Title: Mr.

First Name: Peter

Surname: Forrest

Email Address: pforrest@teledyne.com

Institution/Company: Teledyne Defence & Space

Position: Head of Business Development

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Cryogenics systems, Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?:

Please add the link to your company internet site: www.teledynemicrowave.com

Please describe briefly the main domain of activity of your company: RF and Microwave Research, Design & Manufacturing.

Registrant ID: 100

Arnaud Foussat

Title: Mr.

First Name: Arnaud

Surname: Foussat

Email Address: arnaud.foussat@cern.ch

Institution/Company: CERN

Position: Magnet senior engineer

Country: Switzerland

Please specify the technology domains you would like to discuss.: Cryogenics systems, Magnets components & assemblies

Are you registered as a CERN supplier?:

Please add the link to your company internet site: CERN.ch

Please describe briefly the main domain of activity of your company: HEP laboratory

Registrant ID: 272

Ben Francis

Title: Mr.

First Name: Ben

Surname: Francis

Email Address: sales@argonservices.co.uk

Institution/Company: Argon Services

Position: Technical Sales

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.argonservices.co.uk

Please describe briefly the main domain of activity of your company: Manufactures of Mu Metal and Stainless Steel vacuum chambers and UHV instruments. Full In house machining, UHV welding, UHV cleaning and assembly.

Registrant ID: 175

Peter Francis

Title: Mr.

First Name: Peter

Surname: Francis

Email Address: peter@argonservices.co.uk

Institution/Company: Argon Services

Position: Proprietor

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.argonservices.co.uk

Please describe briefly the main domain of activity of your company: Manufactures of Mu Metal and Stainless Steel vacuum chambers and UHV instruments. Full In house machining, UHV welding, UHV cleaning and assembly.

Registrant ID: 153

Ravot Frederic

Title: Mr.

First Name: Ravot

Surname: Frederic

Email Address: fravot@aip-plast.fr

Institution/Company: AIP

Position: Sales Engineer

Country: France

Please specify the technology domains you would like to discuss.: Cryogenics systems, High precision assembling & manufacturing, Raw materials, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.aip-plast.fr

Please describe briefly the main domain of activity of your company: COMMENTS • To ensure the study (conception, development and industrialization). • To offer different process in order to the needs (machining, injection, additive manufacturing). • To offer different materials (thermoplastics, thermosets, composites). • To define the mechanical and physico-chemical characterizations of reinforced polymers. • To define the micrographics, porosities and cleanliness measurement. • To design according to exact specifications and validation by structural design analysis and/or rheology. • To organize a technical meeting at CERN (AIP is close to CERN).

Registrant ID: 146

Marcel Fuerst

Title: Mr.

First Name: Marcel

Surname: Fuerst

Email Address: m.fuerst@weka-ag.ch

Institution/Company: WEKA AG

Position: Head of Sales & Marketing

Country: Switzerland

Please specify the technology domains you would like to discuss.: Cryogenics systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.weka-ag.ch/en>

Please describe briefly the main domain of activity of your company: WEKA Cryogenic Components provide solutions for handling fluids typically below 120K. Typical fluids are L/GHe & super fluid He-II, H₂, Ne, Ar as well as Air Gases, up to 1000bar pressure. The manufacturing range includes Cryogenic and Warm Control & Shut-Off Valves, High Pressure Valves for H₂-Technology, Cryogenic Safety Valves, Transfer Line Couplings, Check Valves, Ejectors, Space Cryogenics Components, HTS Current Leads and customer specific developments!

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.aeon-eng.com

Please describe briefly the main domain of activity of your company: Mechanical design, analysis, system engineering and project management

Registrant ID: 58

Mark Gallilee

Title: Mr.

First Name: Mark

Surname: Gallilee

Email Address: markgallilee@scientificmagnetics.co.uk

Institution/Company: Scientific Magnetics

Position: Engineering Director

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Cryogenics systems, Cryostats & subcomponents for cryo equipment, Magnets components & assemblies

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.scientificmagnetics.co.uk/>

Please describe briefly the main domain of activity of your company: Superconducting magnet system manufacture, coil wind, components and consultancy. Cryogenic systems

Registrant ID: 256

Quentin Gambier

Title: Mr.

First Name: Quentin

Surname: Gambier

Email Address: quentin.gambier@bertin.fr

Institution/Company: Bertin TECHNOLOGIES

Position: Sales Manager

Country: Germany

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.bertin.fr>

Please describe briefly the main domain of activity of your company: Bertin Technologies develops instrumentation systems for Large-scale Experiments such as LMJ (Laser Megajoule) or ITER (Tokamak leak localization). Optical, Optomechanical & Electronic instruments are developed from scratch up to Assembly Integration Testing and Validation. These large-scale scientific systems on the following applications: - High stability & Calibration Instrumentation - Metrology Instrumentation - Specific Environment Instrumentation - Quality : From design to qualification

Registrant ID: 19

Alberto Garbayo

Title: Mr.

First Name: Alberto

Surname: Garbayo

Email Address: agarbayo@a-v-s.uk.com

Institution/Company: AVS Added Value Solutions UK Ltd.

Position: Business Development Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.a-v-s.uk.com

Please describe briefly the main domain of activity of your company: AVS develops bespoke Engineering solutions and turn-key project to Science and Technology Markets i.e. Particle Accelerators, Synchrotrons, Nuclear Fusion, Astrophysics, Lasers and Space. AVS is an European SME with highly qualified personnel and AVS UK is developing new technologies for Space applications that include Ion Thrusters, Diagnostic devices and mechanisms. AVS UK is part of the UK industry for the ESS, SKA, ESO, etc. and its involved throughout the whole life of the product, including conceptual design, modelling, manufacturing, integrations and tests. AVS UK can perform thermal, engineering, structural and multi-physics analysis as well as high quality mechanical engineering, drafting and high precision assembly of mechanics, cryogenics sub-systems, cryostats, vacuum vessels, RF cavities, etc. AVS is delivering at the end of April the UK biggest vacuum chamber to RAL Space that will perform simulation and tests of the next generation of the Sentinel EO satellites.

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://www.stfc.ac.uk/>

Please describe briefly the main domain of activity of your company: STFC Tender Opportunities Team

Registrant ID: 64

Guido Giorgi

Title: Mr.

First Name: Guido

Surname: Giorgi

Email Address: guido.giorgi@vacuumfab.it

Institution/Company: Vacuum FAB srl

Position: Managing Director

Country: Italy

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.vacuumfab.it/index.php/en/>
http://www.vacuumfab.it/images/cataloghi/2016/VFAB-Vacuum_micropositioning.pdf
http://www.vacuumfab.it/images/cataloghi/2016/VQ-Gimbal_data-sheet.pdf

Please describe briefly the main domain of activity of your company: At Vacuum FAB we design and manufacture UHV positioning stages as well as multi axes positioning systems. We focus especially on hi-end demanding applications that require dry lubrication. Vacuum FAB offers also gimbal as well as kinematic mirror mounts for vacuum.

Registrant ID: 138

Anthony Gleeson

Title: Mr.

First Name: Anthony

Surname: Gleeson

Email Address: anthony.gleeson@stfc.ac.uk

Institution/Company: STFC

Position: Business Development Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.stfc.ac.uk

Please describe briefly the main domain of activity of your company: STFC is responsible for the UK's National Laboratories (inc. Rutherford Appleton Laboratory, Daresbury Laboratory and ATC Edinburgh) and delivers large-scale scientific infrastructure (inc. particle accelerators) for the UK and international science base and industry.

Registrant ID: 40

Mark Glynn

Title: Mr.

First Name: Mark

Surname: Glynn

Email Address: mark.glynn@hempel-metals.com

Institution/Company: Hempel Special metals

Position: General Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, High precision assembling & manufacturing, Raw materials, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.hempel-metals.com

Please describe briefly the main domain of activity of your company: We supply special metals to the industry and supply CERN with Titanium, Molybdenum, Tungsten, Tantalum, and many more materials.

Registrant ID: 59

Matthew Goldsworthy

Title: Mr.

First Name: Matthew

Surname: Goldsworthy

Email Address: matthew.goldsworthy@tiverton-fabrications.co.uk

Institution/Company: Tiverton Fabrications Limited

Position: Project Team Leader

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Cryogenics systems, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://www.tiverton-fabrications.co.uk/>

Please describe briefly the main domain of activity of your company: Whilst precision tubes and cylinders are our core product, TFL has evolved to become a leading 'one stop shop' for various customers across a broad spectrum of industries. By expanding operations and facilities we offering a more complete service delivering component products such as pressure tested gas dewars, vacuum chambers, vessel assemblies and fabrications supplied and tested inline with customer specifications.

Registrant ID: 38

Rupert Gordon

Title: Mr.

Country: Switzerland

Please specify the technology domains you would like to discuss.: Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: <http://home.cern/>

Please describe briefly the main domain of activity of your company: HL-LHC Project

Registrant ID: 50

Andy Hassall

Title: Mr.

First Name: Andy

Surname: Hassall

Email Address: andy.hassall@morson-projects.co.uk

Institution/Company: Morson Projects Limited

Position: Associate Director

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <https://www.morson.com/projects>

Please describe briefly the main domain of activity of your company: Morson Projects provides cost effective multi-disciplined management, engineering and design services to clients across a variety of industrial sectors. This gives our clients added value and the advantages of bringing "best practice" that has been developed by Morson Projects delivery teams.

Registrant ID: 254

Nils Hassel

Title: Mr.

First Name: Nils

Surname: Hassel

Email Address: nils.hassel@rfrsolutions.se

Institution/Company: RFR Solutions AB

Position: Technical Manager

Country: Sweden

Please specify the technology domains you would like to discuss.: Cryogenics systems, Cryostats & subcomponents for cryo equipment, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.rfrsolutions.se

Please describe briefly the main domain of activity of your company: RFR Solutions develops, manufactures and sells first-rate stainless steel solutions. We offer the whole chain from design support and prototyping to production, assembly and verification. In addition we provide material-technical expertise, design review, drawing support and production optimization, preferably within your project group. Complete in-house production setup incl. sheetmetal works, tubing, welding and machining as well as surface treatment of stainless steel. Certified acc. to EN ISO 9001 and EN ISO 3834-2 (welding).

Registrant ID: 217

Ian Hastings

Title: Mr.

First Name: Ian

Surname: Hastings

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.uhvdesign.com/>

Please describe briefly the main domain of activity of your company: We specialise in providing products that have been designed to address the challenges of high- and ultra-high-vacuum motion and heating. Our products are the result of over 25 years of collaboration with the scientific community and scientific system manufacturers, and have gained a reputation for outstanding performance and reliability.

Registrant ID: 173

Pavel Hedbavny

Title: Dr.

First Name: Pavel

Surname: Hedbavny

Email Address: hedbavny@vakuum.cz

Institution/Company: VAKUUM PRAHA

Position: CEO

Country: Czech Republic

Please specify the technology domains you would like to discuss.: Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.vakuum.cz

Please describe briefly the main domain of activity of your company: Production of vacuum systems, including: - calculation, design and construction, - CNC machining and welding, - chemical cleaning and thermal vacuum processing, - quality control of mechanical and vacuum parameters. Vacuum and ultra-high-vacuum components - Ultra-high-vacuum systems for R&D; - Vacuum systems for particle accelerators.

Registrant ID: 252

Christer Herrström

Title: Mr.

First Name: Christer

Surname: Herrström

Email Address: chh@herrstroms.se

Institution/Company: Herrströms Mekaniska Verkstads AB

Position: CEO

Country: Sweden

Please specify the technology domains you would like to discuss.: High precision assembling & manufacturing

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.herrstroms.se

Please describe briefly the main domain of activity of your company: Manufacturing of one-of-a-kind machines and parts, maintenance, NC or manual turning and milling, welding and hardfacing with or without license. Hydraulic block construction and manufacturing.

Registrant ID: 110

Stephanie Hills

Title:

First Name: Stephanie

Surname: Hills

Email Address: stephanie.hills@cern.ch

Institution/Company: STFC - Rutherford Appleton Laboratory

Position: European Communications Officer

Country: United Kingdom

Please specify the technology domains you would like to discuss.:

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.stfc.ac.uk

Please describe briefly the main domain of activity of your company: Provision of large scale research facilities and research funding in the UK, and access to large scale facilities internationally including CERN.

Registrant ID: 12

Martin Hodges

Title: Mr.

First Name: Martin

Surname: Hodges

Email Address: martin.hodges@sts-defence.com

Institution/Company: STS Defence

Position: Heasd of Business Development

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.sts-defence.com/>

Please describe briefly the main domain of activity of your company: STS Defence is a leading electronics engineering & contract manufacturer. Leveraging over 40 years' experience of working on Defence, Aerospace & Technology projects to develop an impressive portfolio of through-life capabilities that are essential to our client's needs. STS Defence provide a full 'turn-key' approach from simple Metal Fabrication, PCBA, Cable Assembly through to complex Box-Build, Rack Systems & Containerisation. Capabilities : ■ Cable assembly design and manufacture ■ Harness and loom design and manufacture ■ Cable Assembly Repair & Overhaul ■ Printed Circuit Board Assy (PCBA) ■ Programme Management ■ New Product Introduction ■ Rapid Prototyping ■ Development and Box Build design ■ Fabrication & Finishing ■ Overmoulding ■ Electronic assembly wiring and test ■ Containerisation

Pierre-Yves JULIEN

Title: Mr.

First Name: Pierre-Yves

Surname: JULIEN

Email Address: pyjulien@onet.fr

Institution/Company: Onet Technologies

Position: Sales & Development Manager

Country: France

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site:
<https://fr.groupeonet.com/Nos-metiers/Technologies>

Please describe briefly the main domain of activity of your company: Onet Technologies intervenes at all stages of the nuclear cycle, offering its proven capabilities in integrated engineering and lead-contracting in new build and nuclear services. Onet Technologies draws from 40 years' experience in the building, maintenance and replacement of major components in power reactors and other nuclear installations, in decontamination and in decommissioning, in radioactive waste treatment and storage. Onet Technologies takes an active and expert role in designing and building future power and research nuclear reactors, in innovative projects such as CERN, ITER, research reactors and Generation IV, as Jules Horowitz or ASTRID. International development is core in Onet Technologies' strategy, supported by subsidiaries and partners in the United Kingdom, Italy, Belgium, Eastern Europe, Japan, Canada and USA. Employing a workforce of 2700 staff, composed of 400 engineers and experts, and has a sales turnover of 251 million euros. Onet Technologies is a major player in the civil nuclear industry, 100% owned by the Onet Group.

Email Address: fiona.kerr@connect2cleanrooms.com

Institution/Company: Connect 2 Cleanrooms Ltd

Position: Territory Account Manager

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Collimators & heat resistant materials, Cryogenics systems, Cryostats & subcomponents for cryo equipment, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies, Raw materials, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.cleanroomshop.com/>
<http://www.connect2cleanrooms.com/>

Please describe briefly the main domain of activity of your company: Our modular cleanrooms are bespoke, clean environments that drive efficiency for our clients through flexible design. Our ISO classified controlled environments protect critical processes for a diverse range of sectors around the world. Based in the UK, we are global specialists in cleanroom design & manufacture. To ensure that your cleanroom continues to perform efficiently and enhance your business process, it needs to be validated to prove it complies with ISO 14644-1:2015 - Classification of air cleanliness by particle concentration. ISO 14644-2:2015 - Monitoring to provide evidence of cleanroom performance related to air cleanliness by particle concentration, recommends customers to complete risk assessments and monitoring plans to determine the frequency of testing and validation to their individual processes. It states the maximum time interval between airborne particle concentration testing of a cleanroom of ISO class 5 and below is 6 months and ISO class 6 and above is 12 months. We have a fully qualified team of engineers ready to carry out the services and validations that you require. Cleanroomshop.com is a UK based online specialist supplier and distributor of cleanroom supplies, cleanroom consumables, products and accessories for the cleanroom and healthcare industry internationally. A division of Connect 2 Cleanrooms. Cleanroomshop, launched the first e-commerce cleanroom supplies shop in 2002. From our very first day we've offered upfront pricing, online ordering and next day delivery - with unbeatable customer service.

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.cadielsa.com/en/>

Please describe briefly the main domain of activity of your company: GRUPO CADIELSA was established in Valladolid in the year 1990, in a business environment that had no warehouses within the electric sector capable of satisfying the needs of a large group of professionals that required quality products and services. CADIELSA VALLADOLID was established for the purpose of meeting the needs of this market segment. For over 20 years we have been defining our multi-specialist profile by continually incorporating innovative products and services and staying well ahead of our client's current as well as potential needs in our area of influence. From GRUPO CADIELSA we have always been known for being a company with a strong regional character and based on this premise, we have opened 7 new point of sales locations in our community. In the year 2008, GRUPO CADIELSA created CADIELSA SOLAR for the purpose of distributing solutions for heating, air conditioning and photovoltaic systems. In the year 2010, the company began its internationalisation process by opening a new branch in the city of Tangier (Morocco), for the purpose of providing services in the neighbouring country.

Position: Head of Sales

Country: Spain

Please specify the technology domains you would like to discuss.: Collimators & heat resistant materials, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Magnets components & assemblies, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.tryo.es/rymsarf/>

Please describe briefly the main domain of activity of your company: RYMSA designs & manufactures RF passive equipment for large scientific facilities, such as particle accelerators or fusion laboratories, offering a complete portfolio in terms of both waveguide and coaxial transmission lines, covering all needs both at the level of intake power as well as at working frequency level, including all kinds of accessories, such as elbows, interior connectors, adapters, custom-sized couplers, sliding cuts, etc. All products are qualified to work under both normal pressurization and vacuum conditions. RYMSA products can withstand being liquid cooled, including the supply to the refrigeration units. RYMSA also supplies of other passive RF devices such as cavities and power combiners made in various topologies, dedicated to adding signals from different amplifiers, patch panels, coaxial switches, etc. In addition to RF devices, the group offers a full range of electronic and electrical junction boxes for the distribution of this signal type, which can be customized to meet any need and support any type of power rating, mechanical or environmental, according to the specific job requirements. RYMSA's organizational structure, 100% focused in engineering is optimal for adapting the final characteristics to the specific needs of each project, allowing a rapid and reliable response to the specific requirements of each client. Continuing an industrial tradition of more than 40 years in the RF field, RYMSA considers continuous innovation a key element of its success.

Please add the link to your company internet site: <http://www.cadielsa.com/en/>

Please describe briefly the main domain of activity of your company: GRUPO CADIELSA was established in Valladolid in the year 1990, in a business environment that had no warehouses within the electric sector capable of satisfying the needs of a large group of professionals that required quality products and services. CADIELSA VALLADOLID was established for the purpose of meeting the needs of this market segment. For over 20 years we have been defining our multi-specialist profile by continually incorporating innovative products and services and staying well ahead of our client's current as well as potential needs in our area of influence. From GRUPO CADIELSA we have always been known for being a company with a strong regional character and based on this premise, we have opened 7 new point of sales locations in our community. In the year 2008, GRUPO CADIELSA created CADIELSA SOLAR for the purpose of distributing solutions for heating, air conditioning and photovoltaic systems. In the year 2010, the company began its internationalisation process by opening a new branch in the city of Tangier (Morocco), for the purpose of providing services in the neighbouring country.

Raam Shanker

Title: Mr.

First Name: Raam

Surname: Shanker

Email Address: info@equitusengineering.com

Institution/Company: Equitus Engineering Limited

Position: Founder

Country: United Kingdom

Please specify the technology domains you would like to discuss.: Cryogenics systems, Raw materials, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: <http://www.equitusengineering.com/>

Please describe briefly the main domain of activity of your company: Equitus Engineering Limited is a Mechanical Engineering Solutions provider. Some of the services we offer are as follows: • Mechanical Engineering Design • Design Development • Design Validation, Substantiation and Analysis using FEA and CFD • Manufacturability Review • Design and Process FMEAs Our main areas of expertise are mechanical engineering design and development, which includes the full product life cycle from writing of technical specifications upto the point of producing manufacturing drawings. We're currently involved as project partners in a H2020 project funding application for renewable energy. We're working as providers of mechanical engineering solutions for engineering and manufacturing clients across multiple sectors in the UK and in Europe.

Please specify the technology domains you would like to discuss.: Civil engineering & technical infrastructures, Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.colstonltd.co.uk

Please describe briefly the main domain of activity of your company: An innovative engineering services and product provider of Safety Critical Fabricated, Welded, Machined and Electro-Mechanical Assemblies for Nuclear, Rail, Defence, Marine, Aerospace, Infrastructure and General Engineering applications. Approvals and accreditations include ISO9001:2008, AS9100 Rev C, ISO14001, OSHAS18001 and Fit4Nuclear. Welding is a core competence with accreditations including EN15085 CL1 (covering also BS EN3834-2) and EN1090 EXC3. Acquired by DAE Systems Inc. in 2012, they also design and manufacture Fans, Motors, Heaters and Air Moving Systems. DAE have previously supplied numerous components to the Nuclear industry including Flasks & Containers, Flask Transporters, Mechanical Structures and a variety of Machined and Fabricated Components. We also hold approved supplier status with many higher tier recognized major Nuclear suppliers.

Institution/Company: LouwersHanique

Position: Sales Manager

Country: Netherlands

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: No

Please add the link to your company internet site: www.louwershanique.com

Please describe briefly the main domain of activity of your company: LouwersHanique is a leading specialist in the development and manufacturing of high-end solutions in the field of the thermal and mechanical processing of technical glass and ceramic materials. The company activities also include the bonding and [clean room] assembly of unique material combinations based on an extensive range of bonding and integration technologies. The main company focus and strength lies with low volume – high mix niche solutions for high-end applications and leading edge industries and customers driving today's and tomorrow's technological progression. One of the main activities is the development and manufacturing of electrical and optical feedthroughs. Our electrical and optical feedthroughs offer hermetic and electrical isolation in Ultra-High Vacuum (UHV) and High Pressure applications with a lifetime leak-free performance from Cryogenic temperatures up to 500 degrees C. We apply proprietary glass-to-metal binding technologies to directly seal pins and other components into the metal flange without laser welding or other sealing technologies. No local thermal stress will occur and virtual leaks are absent. With our technology we can make use of standard flanges as well as custom designed parts and assemblies, exceeding the limitations of existing technologies. Based on a modular concept we can integrate low noise Coaxial, High Power/High Voltage optical and other feedthroughs in Flanges and modules without the need of laser welding with extremely high integration levels. In-house cleanroom assembly, process control and state-of-the-art surface finishing and cleaning equipment guarantee flawless surface texture and topography for the most demanding applications. To ensure that all products are leak tight LouwersHanique has the newest testing facilities available as Helium testing equipment, RGA detection equipment, ultrasonic cleaning and 3D measurement systems (CMM) including white light interferometry for nm accurate surface inspection. The company implemented World Class Manufacturing, JIT and 5 S best practises resulting in 100% process and quality control thus leading the highest possible QLTC reliability and overall product value for the lowest integral costs. This, combined with our highly skilled and motivated workforce of over 110 technicians enables us to produce components and solutions of consistent and high quality on time, every time. LouwersHanique is located in the High Tech Brainport Region of the Netherlands and is ISO 9001:2015 certified by TÜV

Please specify the technology domains you would like to discuss.: Electro-mechanics, electronics & instrumentation, High precision assembling & manufacturing, Ultra high vacuum components & systems

Are you registered as a CERN supplier?: Yes

Please add the link to your company internet site: www.mclennan.co.uk

Please describe briefly the main domain of activity of your company: Mclennan is a leading supplier of motion control products (Motors, Gearboxes, Feedback Devices, Drives & motion Controllers, Assemblies and systems. We serve the UK, Ireland and France in certain niche markets such as Science and Research, we operate worldwide. We specialise in motor sizes 1 kW and less and many of our products are less than 100 W, but do have larger motors if required, We have a large commitment to stock allowing us to respond quickly to customer needs - JIT deliveries and KANBAN systems can be easily catered for. We have a creative approach that allows for rapid prototyping and testing of ideas. We have the capability for manufacture mechanical parts; carry out mechanical assembly and electrical wiring. This combination of distribution, manufacturing and systems integration capability allows us to provide custom solutions, including manufacture of sub assemblies, complete control systems and mechanical mechanisms. Our own electronic designs including our popular PM1000 motion controller provides flexible, easy to use solutions. This flexibility allows us to address small bespoke systems with ease including those for University research projects. OEM solutions can also be catered for either in component or housed formats. Mclennan has a commitment to technical excellence, customer service and a partnership approach to business. We offer our customers a full design and specification service backed up with full technical sales and applications support staff.
