

High Energy Particle Physics Workshop 2017

Thursday, February 2, 2017

Session VII (3:50 PM - 5:20 PM)

time	[id] title	presenter
3:50 PM	[13] Non abelian correction to the induced gluon radiation	RASOANAIVO, Andrianiaina Narindra
4:05 PM	[17] Absorption probabilities and QNMs associated with spin-3/2 particles near N-dimensional Schwarzschild black holes	HARMSSEN, Gerhard
4:20 PM	[18] Quasinormal modes for a spin-3/2 field in a 4-dimensional Reissner-Nordstrom background	Mr NGCOBO, Xolane
4:35 PM	[19] Two Higgs doublet model in future colliders	MOSOMANE, Chuene Johannes
4:50 PM	[20] Studies of the b-tagged control region for same sign WW production in proton-proton collision data recorded by the ATLAS Detector	VAN TONDER, Raynette
