(As we do not have many talks this time we will be relaxed about the time)
- As usual all talks will be placed on the web

■ **What happened ?**

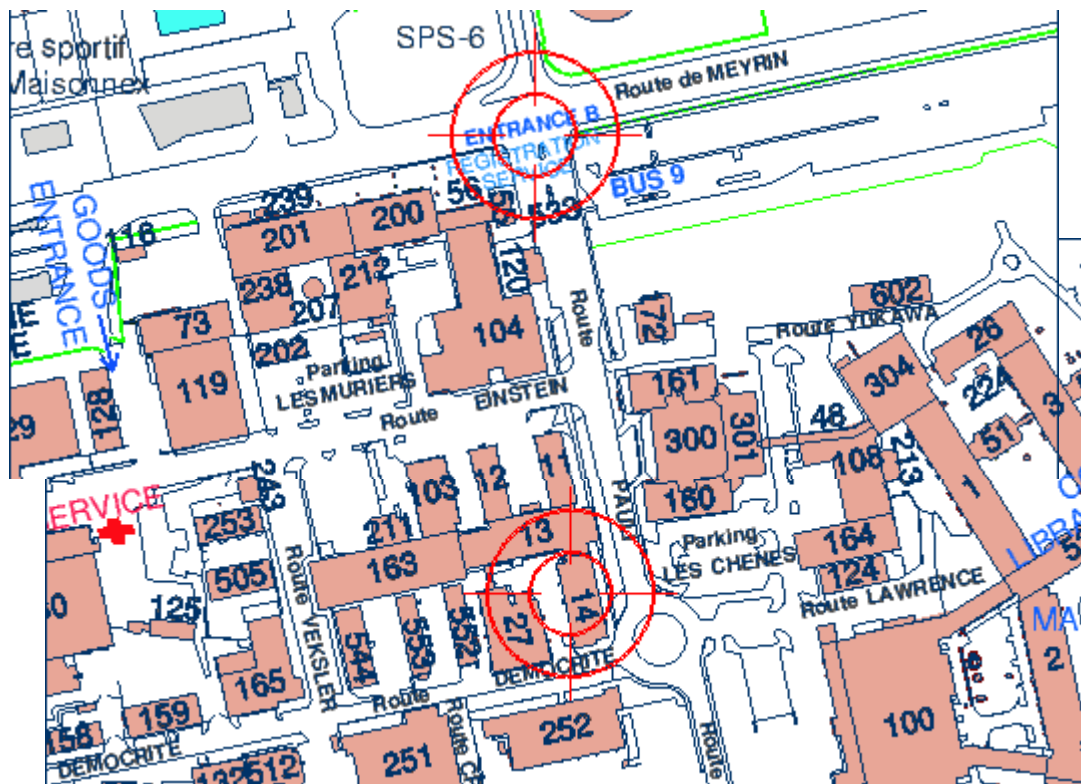

### ■ Since last Workshop in Prague (25-28 June 2006)

- Only 16 weeks ago !!

.... in-between many conferences with strong RD50 participation:

- **RD50 workshop on defect analysis in radiation damaged silicon detectors**, University of Hamburg (DESY site), 23/24-August 2006
  - **Hiroshima 2006** Sixth International Symposium on the Development and Application of Semiconductor Tracking Detectors STD6 Hiroshima 11-15 September 2006, Carmel, California
  - **VERTEX 2006** 15<sup>th</sup> INTERNATIONAL WORKSHOP ON VERTEX DETECTORS
  - **RADECS 2006** Workshop, 27-29 September 2006, Athens, Greece
  - **Siena 2006** 10<sup>th</sup> Topical Seminar on Innovative Particle and Radiation Detectors (IPRD06) 1 - 5 October 2006 Siena, Italy
  - **RESMDD 2006** Sixth edition of the International Conference on Radiation Effects on Semiconductor Materials, Detectors and Devices will be held in Firenze, Italy on October 10 - 13, 2006.
- Take lower participation in this workshop not a sign for decreasing interest in RD50 work, but as a sign that RD50 is presently successfully transferring results to the HEP community (..... RD50 members are too busy to come to the workshop).

- Tuesday evening at 19:00 (sharp!!)
- **Departure in front of Building 14 (close to the roundabout at entrance B)**

- **Restaurant: Bois Joly (Crozet)**
