

# Excited QCD 2017

## Friday 12 May 2017

### Friday Morning (20min talks + 10min discussions) (08:30 - 12:00)

-Conveners: Ami Rostomyan

time	[id] title	presenter
08:30	[161] Overview on QCD studies at BESIII	ZHOU, Xiaorong
09:00	[128] Recent QCD-related results from Kaon physics at CERN (NA48 and NA62)	Mr SHKAROVSKIY, Sergey
09:30	[125] Interference effect in vacuum polarization from BABAR, KLOE,CMD2 and SND data.	SAULI, Vladimir
10:00	[159] A novel multiquark approach to hadron resonances	Prof. AFONIN, Sergey
10:30	Break	
11:00	[147] Mixture of quark and gluon fluids described in terms of anisotropic hydrodynamics	MAKSYMIUK, Ewa
11:30	[156] Dilepton production in Relativistic heavy ion collisions	WOLF, Gyorgy
