

Excited QCD 2017

Monday 8 May 2017

Monday Morning (20min talks + 10min discussions) (08:30 - 12:00)

-Conveners: Robert Kaminski

time	[id] title	presenter
08:30	[146] Heavy and heavy-light mesons and the Lorentz structure of the quark-antiquark kernel	Prof. STADLER, Alfred
09:00	[142] Rho meson form factors in the point form	Dr BIERNAT, Elmar P.
09:30	[130] Quark, gluon and meson correlators of unquenched QCD	MITTER, Mario
10:00	[134] Spin 1 low lying meson spectra and the subtle link to the spin 0 mesons.	MORAIS, Jorge
10:30	Break	
11:00	[155] From the Gribov ambiguity to confining effective models	PALHARES, Leticia
11:30	[151] Holographic models for heavy vector mesons	BRAGA, Nelson
