

Power Working Group 20170913

M. Hansen, CERN

Introduction

- It was agreed after ACES2016 that ATLAS and CMS should coordinate developments in low voltage power distribution for the phase 2 upgrades
- Most discussions between ATLAS and CMS Trackers. Status talks:
 - ◆ ATLAS: Alex
 - ◆ CMS: Francois
 - Options for LV power generation and distribution: From common project study to CMS OT use case
- ATLAS Calorimeters and NSW
 - ◆ Philippe
- CMS generic bulk low voltage power investigation
 - ◆ Magnus
- Discussion and more contributions if applicable
