

## **Session Program**

**13-14 Mar 2017**

### **EDM kick-off meeting**

### ***Survey of present situation and ongoing developments***

CERN, 6/2-024 - BE Auditorium Meyrin

# Monday 13 March

09:00

## Survey of present situation and ongoing developments

**Session** | **Location:** CERN, 6/2-024 - BE Auditorium Meyrin

### 09:00–09:10 Introduction

**Speaker**

Mike Lamont

### 09:10–09:30 All-electric versus combined field storage ring

**Speaker**

Yannis Kyriakos Semertzidis

### 09:30–09:50 Frozen and quasi-frozen spin lattices

**Speaker**

Yury Senichev

### 09:50–10:10 Spin tracking studies for pEDM experiment

**Speaker**

Selcek Haciomeroglu

### 10:10–10:20 COSY as test facility

**Speaker**

Hans Stroeher

### 10:20–10:40 Achievements at COSY

**Speaker**

Jorg Pretz

### 10:40–11:00 Coffee

### 11:00–11:20 Precursor experiment at COSY

**Speaker**

Frank Rathmann

### 11:20–11:40 Polarized beams and spin manipulation at COSY

**Speaker**

Dr Bernd Alfred Lorentz

### 11:40–11:50 Stochastic cooling

**Speaker**

Rolf Stassen

### 12:00–12:20 High precision beam control, COSY orbit control

**Speaker**

Christian Weidemann

### 12:20–12:40 Polarized H-/D- source at COSY

**Speaker**

Ralf Gebel

12:40–13:00

**High intensity polarized sources**

**Speaker**

Anatoli Zelenski

13:00
