

Session Program

May 8 - 10, 2017

Phenomenology 2017 Symposium

Heavy Flavor

University of Pittsburgh
Pittsburgh, PA 15260

Tue, May 9

2:00 PM

Heavy Flavor

Session | Location: Benedum Hall, G-31

2:00 - 2:15 PM **NA62 experiment at CERN: status and recent results**

Speaker

Christopher John Parkinson

2:15 - 2:30 PM **Recent results in B-physics with the ATLAS detector**

Speaker

Prof. Soeren Prell

2:30 - 2:45 PM **Possible origin(s) of $R_D^{(*)}$ flavor anomalies**

Speakers

AMARJIT Soni, Prof. Amarjit Soni

2:45 - 3:00 PM

D^{*} polarization as a probe to discriminate new physics in $\bar{B} \rightarrow D^{*} \tau \bar{\nu}_\tau$

Speaker

Prof. Sankagiri Umasankar

3:00 - 3:15 PM **Tau properties in B decays from final-state kinematics**

Speaker

Susanne Westhoff

3:15 - 3:30 PM **On HQET and NRQCD Operators of Dimension 8 and Above**

Speaker

Ayesh Gunawardana

3:30 - 3:45 PM

Measurements of Beauty and Charmonium production with the ATLAS detector

Speakers

Mr Aidan Grummer, Aidan Grummer

3:45 - 4:00 PM

Studying the $P_c(4450)$ resonance in J/ψ photoproduction off protons

Speaker

Astrid Hiller Blin

4:00 PM
