Consolidating Computational Resources at IceCube

Wednesday, 7 June 2017 09:50 (25 minutes)

This talk describes how IceCube uses HTCondor and an in-house glidein system to consolidate computing resources from a diverse set of facilities.

Primary authors: SCHULTZ, David (University of Wisconsin-Madison); MERINO, Gonzalo (IceCube); BRIK, Vladimir (University of Wisconsin at Madison)

Presenter: BRIK, Vladimir (University of Wisconsin at Madison)

Session Classification: Workshop

Track Classification: HTCondor presentations and tutorials
