【51】 Start-Up Ecosystem Switzerland

Wednesday 23 August 2017 15:00 (10 minutes)

The Start-Up Ecosystem of Switzerland consists of a wide variety of cantonal, federal and private initiatives. This short introduction to the topic will provide an overview of the most relevant available Startup programs, co-working spaces, accelerators and support system, thus laying the ground for the present Startuper's experiences in their respective pitches and the following panel discussion. This may allow the identification of Start-Up Challenges and Experiences as well as some best practice and real world advice.
