【305】 Physics at the HL-LHC

Wednesday 23 August 2017 15:30 (20 minutes)

In this presentation I will provide a concise overview of the main physics analyses that are planned to be carried out with the very large data set delivered during the High-Luminosity LHC phase (HL-LHC). Some particular physics channels will be highlighted.

Author: DISSERTORI, Günther (Eidgenössische Technische Hochschule Zürich)

Presenter: DISSERTORI, Günther (Eidgenössische Technische Hochschule Zürich)

Session Classification: Nuclear, Particle-and Astrophysics (TASK-FAKT)

Track Classification: Nuclear, Particle- and Astrophysics (TASK - FAKT)
