

Session Program

21-25 Aug 2017

Joint annual meeting of Swiss and Austrian Physical Societies 2017

Physics in Startups

Wednesday 23 August

15:00

Physics in Startups

Session | Location: CICG, Room 6

15:00-15:10 **[51] Start-Up Ecosystem Switzerland**

Speaker

Paul Duvoisin

Location

15:10-15:30

[52] Bringing a frequency-comb spectrometer to market - account of a journey

Speaker

Markus Geiser

Location

15:30-15:50

[53] Ultrafast femto laser turns creativity into smart monolithic micro-systems

Speaker

Andrea Lovera

Location

15:50-16:10

[54] Crystalline Mirror Solutions: spinning off high-performance laser optics from fundamental quantum research

Speaker

Markus Aspelmeyer

Location

16:10-16:30

[55] From Bits to Atoms: Fablabs as a useful bridge from physical inspired ideas to real products

Speaker

Christian Teissl

Location

16:30

17:00

Physics in Startups

Session | Location: CICG, Room 6

17:00-17:20 **[56] DECTRIS - 10 years counting what matters**

Speaker

David Murer

Location

17:20-17:40 **[57] Urban growth and Energy challenge**

Speaker

Asef Azam

Location

17:40-18:00

[58] Wind Energy with Tethered Drones

Speaker

Rolf Luchsinger

Location

18:00-18:20

[59] Bringing back the Investigative Approach in Science Education

Speaker

Philipp Wissgott

Location

18:20-18:40

[60] Panel Discussion: Start-Up Challenges and Experiences

Location

18:40
