

Session Program

6-11 Jun 2010

eurorib'10

EURORIB 2010

***Working Group - Synergies in
Instrumentation***

Village de Vacances de Lamoura
39310 Lamoura France

Monday 7 June

16:40

Working Group - Synergies in Instrumentation

Session | **Location:** Conference Hall

16:40–17:05

Overview on large gamma arrays and complementary instrumentation

Speaker

Dr Andres Gadea

17:05–17:30

Experiments with Exotic Nuclei applying a new Generation on In-Flight Separators and Spectrometers

Speaker

Prof. Hans Geissel

17:30–17:40

MUSETT and the spectroscopy of heavy elements at GANIL

Speaker

Dr christophe theisen

17:40–17:50

The CHyMENE project for a windowless solid hydrogen thin target

Speaker

A. Gillibert

17:50–18:00

MINOS: a new active target for in-beam gamma spectroscopy

Speaker

Mr Alexandre Obertelli

18:00–18:10

Active target ACTAR for the low-energy short-lived radioactive SPIRAL2 beams

Speaker

Dr Laurent Nalpas

18:10–18:20

Prototyping of DSSD detectors for the EXL project

Speaker

Dr Branislav Streicher

18:20–19:00

Discussion

19:00
