

Session Program

15-17 Mar 2017

DaMESyFla in the Higgs Era

Afternoon Session

SISSA
via Bonomea, 265, 34136 Trieste (Italy)

Wednesday 15 March

14:30

Afternoon Session

Session | **Location:** SISSA, 128-129

14:30-15:15

Understanding Lepton Mixing with Discrete Symmetries

Speaker

Alexander Stuart

16:00

15:15-16:00

Higgs physics and Majorana neutrinos

Speaker

Miha Nemevsek

16:30

Afternoon Session

Session | **Location:** SISSA, 128-129

16:30-17:15

The Power of Perturbation Theory

Speaker

Marco Serone

17:15

Thursday 16 March

14:30

Afternoon Session

Session | **Location:** SISSA, 128-129

14:30-15:15

First-order electroweak phase transition and Higgs self coupling

Speaker

Minho Son

16:00

15:15-16:00

Energy helps Accuracy: Precision at Hadron Colliders

Speaker

Riccardo Torre

16:30

Afternoon Session

Session | **Location:** SISSA, 128-129

16:30-17:15

Axions and General Relativity

Speaker

Alfredo Leonardo Urbano

17:15
