

Session Program

15-17 Mar 2017

DaMESyFla in the Higgs Era

Morning Session

SISSA
via Bonomea, 265, 34136 Trieste (Italy)

Thursday 16 March

09:45

Morning Session

Session | **Location:** SISSA, 128-129

09:45–10:30

ttH and Exotics in tt+bb final states with the ATLAS experiment

Speaker

Michele Pinamonti

10:30

11:00

Morning Session

Session | **Location:** SISSA, 128-129

11:00–11:45

Precision Tests and Fine Tuning in Twin Higgs Models

Speaker

Roberto Contino

11:45–12:30

How to break electroweak symmetry naturally?

Speaker

Jing Shu

12:30

Friday 17 March

11:00

12:30

Morning Session

Session | **Location:** SISSA, Big Meeting Room, 7th floor

11:00–11:45 **A new perspective of scattering amplitudes**

Speaker
Hui Luo

11:45–12:30 **On the Importance of Electroweak Corrections for B Anomalies**

Speaker
Paride Paradisi
