

Session Program

14-15 Mar 2017

20th ATF2 Project Meeting

ATF2

CERN, 6/R-012 - conference room

Tuesday 14 March

09:00

ATF2: Welcome and studies

Session | **Location:** CERN, 6/R-012 - conference room | **Convener:** Nobuhiro Terunuma

09:00–09:25

Highlights from the CLIC workshop

Speaker

Roberto Corsini

09:30–09:55

CERN octupoles procurement and measurements

Speaker

Michele Modena

10:00–10:25

Experience with half betay* in ATF2

Speaker

Marcin Patecki

10:30

11:00

ATF2: Studies

Session | **Location:** CERN, 6/R-012 - conference room | **Convener:** Nobuhiro Terunuma

11:00–11:25

Analysis of the beam halo collimation system measurements

Speaker

Nuria Fuster Martinez

11:30–11:55

Simulation and measurement of beam halo at ATF (YAG/OTR)

Speaker

Renjun Yang

12:00–12:25

BDSIM simulation studies of the background measured at ATF2 in dependence on the vertical beam halo collimator

Speaker

Anne Schuetz

12:30
