Brainstorming

Event-centric collaboration

Indico Team
Indico Workshop 2.0, CERN, October 2017

Topic

Event-centric collaboration

How could we improve collaboration?

How could Indico help?

Topic

All points of view are valid!

Stop for a few minutes and think:

- What is missing in your collaborative environment?
- A particular tool?
- A particular channel?
- Synergies between tools?
- Could Indico help? How?

Method

Let's split in groups of 4-5 persons

30 minutes to discuss

15 minutes to prepare a small presentation

5 minutes to present (each group)

You can use the projector if you want

Upload to Indico

That's it!

(now it's up to you…)
