

Second Workshop on Wire Experiment for Long Range Beam-Beam Compensation

Contribution ID: **18**

Type: **not specified**

Wire tests at injection energy

Monday 20 March 2017 14:30 (30 minutes)

- Impact of wire SPS and LHC injection (orbit, tune-shift and spread, optics perturbation, lifetime)
- Experiments with single beam at top energy

Presenter: STERBINI, Guido (CERN)

Session Classification: Beam-Beam measurements and simulations
